Danish Society of Public Health

- Welfare Development and Health

**4TH EUROPEAN
 PUBLIC HEALTH
 CONFERENCE 2011 COPENHAGEN**

WELCOME

Chairman, local organising committee and president of the Danish Society of Public Health

Dear Participant,

Welcome to Copenhagen, Denmark for the 4th European Public Health Conference which takes place from 9 to 12 November 2011. We look forward to present you an exciting professional programme with high-level plenary speakers, oral sessions, moderated poster sessions, workshops, and exhibitions. We also have more than 20 pre-conferences focusing on a large array of interesting subjects.

We hope Copenhagen 2011 will continue to encourage contacts between researchers and practitioners in the different countries. When the decision was taken to place the conference in Copenhagen, the Danish Society of Public Health felt that we should focus on Public Health and Welfare – Welfare Development and Health. We have a long tradition in the Nordic countries to develop our societies along a welfare tradition. Europe and the world have recently been confronted with an economic crisis and recession. Both in our plenary sessions and parallel programme, we will discuss important questions to the impact of such crises in modern society: Are our societies today robust towards economic crises? Are there differences between the European countries? Which kinds of welfare models are we working with in Europe? Does the impact of social policy and labour market make a difference on the welfare situation of populations?

It is an old saying in public health that the major improvement in health of the population is mainly due to improvements in living conditions (income, housing, work, hygiene, environment etc). Also lifestyle plays an important role. So far the contribution by preventive and curative health services has not been considered especially important. When looking at the growing

elderly population of Europe, there seems to be a change in point of view. Many claim health services to be very important for the elderly population of Europe in order to improve welfare and daily functioning.

New technologies and new drugs have been developed. We therefore wanted an overview where we focus on the contribution of health services to the welfare of the elderly population. Public health training and education plays an important role for the future of professional intervention by public health professionals. We have therefore included a plenary session with a global perspective on this issue.

The planning and conduct of such a large conference as the annual European Public Health Conference cannot take place without the help and involvement of a lot of national and international bodies and persons. I am very grateful to the international and Danish bodies and persons having been involved in the planning. The economic support from the European Commission, from Danish foundations like Trygfonden and Nordea Danmark fonden and from public authorities like the Danish Ministry of Health/The National Board of Health is very important. The core team of planning and conduct of the conference has been Dineke Zeegers Paget and Dorli Kahr-Gottlieb, EUPHA and Torben Jørgensen and Finn Kamper-Jørgensen, The Danish Society of Public Health.

I wish you all a good and interesting conference.

*Finn Kamper-Jørgensen
Chairman, Copenhagen 2011, President, Danish Society of Public Health*

WELCOME

Professor Walter Ricciardi, EUPHA president

As presidents of the European Public Health Association (EUPHA) and the Association of Schools of Public Health in the European Region (ASPHER) we are honored to extend to each of you a warm welcome to the 4th joint European Public Health Conference held in Copenhagen jointly with the Danish Society of Public Health (DSOPH) from 9 to 12 November. The main theme of the conference is Public Health and Welfare – Welfare Development and Public Health.

We are very pleased this year with the high number and high quality of the pre-conferences organized on Wednesday 9 November and Thursday 10 November 2011. As for the conference programme, during plenary sessions we intend to give examples of the mutual relationship between public

Professor Antoine Flahault, ASPHER president

health and welfare. During the parallel programme all aspects of public health are presented, discussed and commented in the 65 oral sessions and 60 moderated poster sessions.

We are pleased to see that the EPH Conference continues to be a platform for European projects to present their results and/or to organize their committee meetings to further the project.

We hope you will enjoy the conference!

*Walter Ricciardi
EUPHA president*

*Antoine Flahault
ASPHER president*

PLENARY SPEAKERS

GÖSTA ESPING-ANDERSEN

Professor of Sociology at the Universitat Pompeu Fabra, Spain, where he directs the DEMOSOC research unit. In 2009 he was nominated ICREA-Academia professor. His scientific work centres on life course dynamics, social stratification and comparative social policy. Before coming to Pompeu Fabra, he taught at Harvard University, the University of Trento and the European University in Italy. Among his major academic publications are numerous books. He has been actively engaged in applied policy relevant work for international organizations, including the United Nations, the OECD, ISSA, and the European Union.

MICHAEL MARMOT

Professor Sir Michael Marmot MBBS, MPH, PhD, FRCP, FFPHM, FMedSci. Director of the International Institute for Society and Health. MRC Research Professor of Epidemiology and Public Health, University College, London. Michael Marmot has led a research group on health inequalities for the past 30 years. He is Principal Investigator of the Whitehall Studies of British civil servants, investigating explanations for the striking inverse social gradient in morbidity and mortality. He leads the English Longitudinal Study of Ageing (ELSA) and is engaged in several international research efforts on the social determinants of health. He chairs the Department of Health Scientific Reference Group on tackling health inequalities. In 2000 he was knighted by Her Majesty The Queen for services to Epidemiology and understanding health inequalities.

ZSUZSANNA JAKAB

The World Health Organization's Regional Director for Europe since 1st February 2010. Before her appointment, she served as the founding Director of the European Centre for Disease Prevention and Control (ECDC) in Stockholm, Sweden. Between 2002 and 2005, Ms Jakab was State Secretary at the Hungarian Ministry of Health, Social and Family Affairs. Prior to that, she spent 11 years at the WHO Regional Office for Europe in Copenhagen, in a range of senior management roles.

JEAN-MARIE ROBINE

Research Director at INSERM, the French National Institute of Health and Medical Research (www.inserm.fr), within the CERMES Research group in Paris (www.cermes3.fr) and the Unit 710 in Montpellier where he heads the research team Biodemography of longevity and vitality. He studies human longevity, with the aim of understanding the relations between health and longevity. In particular, he measures the impact that the increase in adult life durations may have on the health status of the elderly population.

MARTIN MCKEE

Professor of European Public Health at the London School of Hygiene and Tropical Medicine and research director of the European Observatory on Health Systems and Policies. He has published extensively and his achievements have been recognised by, among others, election to learned societies in Europe and the USA, three honorary doctorates and four visiting professorships. He has an active following on Twitter as @martinmckee.

JØRN OLSEN

Jørn Olsen is an MD and PhD and a professor at the School of Public Health, Aarhus University, Denmark as well as professor in residence at the UCLA School of Public Health in Los Angeles, USA. He is head of the Danish Epidemiology Science Centre and the Danish National Birth Cohort. He has been a consultant on epidemiology for the Danish Board of Health. From 2005 to 2008, he was president of the IEA, The International Epidemiology Association, and each year he teaches at the European Summer Course in Epidemiology in Florence, Italy. Jørn Olsen is the author of several textbooks on epidemiology and has written more than 500 peer-reviewed, scientific papers, mainly on reproduction, cancer and research methodology. He is an editor for the International Journal of Epidemiology, and associate editor for Human Reproduction Update.

CAMILLA STOLTENBERG

Deputy Director, Epidemiology and registers, Norwegian National Institute of Public Health, Oslo, Norway.

Camilla Stoltenberg is a MD and epidemiologist. She served as director of the Division of Epidemiology at the Norwegian Institute of Public Health (NIPH) from 2002-2008, and is now deputy director general of the NIPH with responsibility for strategic development of national health registries. She is involved in a number of national and international research infrastructure projects aimed at development of biobanks, health registries and population based cohorts. Her scientific work focuses on autism and other neurodevelopmental disorders, perinatal and genetic epidemiology, health in immigrant populations, and social inequality in health.

OLLE LUNDBERG

Olle Lundberg is Professor of Health Equity Studies, and presently Director of CHES. His main research interests have included welfare research, health inequalities and social determinants of health. His publications cover topics such as the size and trends of health inequalities in Sweden and internationally; welfare trends in Sweden during the crisis in the 1990s; income, relative deprivation and health; the importance of childhood conditions for adult health; Sense of Coherence and its connection to health; and health among older adults.

PLENARY SPEAKERS

ELINA HEMMINKI

Research professor in THL National Institute of Health and Welfare, THL, Finland and adjunct professor in public health in Helsinki and Tampere Universities. She has wide research experience in health services and epidemiological research. Her research interests include use, determinants and consequences of medical technology, particularly in the field of preventive services. Many of her examples come from women's and children's health and drugs (medicines). Her recent work includes studies on maternity care and its technology and postmenopausal hormone therapy. A methodology she is currently interested in is health services trials, and how ethical and governance rules apply to them.

ANTOINE FLAHAULT

Professor, MD, PhD, is dean of the new EHESP School of Public Health. He is professor in epidemiology, at University Paris-Descartes Hôtel Dieu. He has developed with WHO-HQ the global monitoring of influenza (FluNet). His work in research is conducted in a joint unit (UMR-S 707) at Institut National de la Santé et de la Recherche Médicale and University Paris 6 where he is the director of the WHO collaborating centre for electronic disease surveillance. He has written several books (in French) among them one best seller named "A(H1N1), le journal de la pandémie" and supervised a vast exhibition named "EPIDEMIK" in Paris La Cité des Sciences, and moved to Rio de Janeiro and Sao Paulo, Brasil in 2010.

VESNA BJEGOVIC-MIKANOVIC

Professor, MD, MSc and PhD in public health management, is professor at the School of Medicine, Belgrade University. She is a head of the Centre School of Public Health and director of the Institute of Social Medicine. Professor Bjegovic-Mikanovic is responsible for undergraduate education of medical student and postgraduate education of medical doctors and public health professionals. She is involved in different qualitative and quantitative studies related to the topics mentioned above, multilateral research, networking and projects, with published manuscripts in the same field. She is a member of the Executive Board of ASPHER.

KATARYNA M. CZABANOWSKA

MA, PhD, is an assistant professor at the Department of International Health, Faculty of Health, Medicine and Life Sciences, CAPHRI School for Public Health and Primary Care at Maastricht University. Her scientific interests are in the area of Public Health competencies, competences frameworks development, assessment and self-assessment methods, competence-based education, identification of skill gaps between the expectations of job market and taught curricula and innovative educational approaches in the lifelong learning in Public Health which is reflected in her publications and international project experience. Previously she worked at the Institute of Public Health, Jagiellonian University Medical College.

STEPHEN SHORTELL

Dean, School of Public Health, University of California – Berkeley, USA and educated in business administration and behavioural science. He has been editor and chief for health services research and is member of advisory boards in several journals. He has long publication list with a number of books within health care management and has received several awards.

JOSEP FIGUERAS

Director, WHO Europe, European Observatory for Health Systems and Policies.

Josep has collaborated with multilateral organisations such as the European Commission and the World Bank. He is member of advisory and editorial boards and has served as advisor in more than thirty countries within the European region and beyond. He is honorary fellow of the UK faculty of public health medicine, has been awarded twice the EHMA price for the best annual publication on policy and management, and in 2006 he was awarded the Andrija Stampar Medal. He has been lecturer and head of the MSc Health Services Management, London School of Hygiene & Tropical Medicine.

MOGENS LYKKETOFT

President of the Danish Parliament, former Foreign Minister and chairman of the Social Democratic Party.

For three decades Mogens Lykketoft has been the vanguard of Danish politics. He has been a member of the Danish Parliament, Folketinget, since 1981, and is currently the President of the Parliament. He graduated in economics at University of Copenhagen. In the 1970s he was head of the Economic Council of the Labour Movement and the Social Democrats. During 1981-82 he served as Minister of Taxation. Mogens Lykketoft has served as chairman of several parliamentary committees. 1993-2001 he was Minister for Finance, the longest serving in a century, and the chief architect of economic reform. 2000-01 Mr. Lykketoft was Minister of Foreign Affairs, and 2002-05 he was chairman of The Social Democrats.

PRE-CONFERENCES

TIME/LOCATION	ORGANISER	ACTIVITY
8:30 - 18:00 Bella Center B3 M6	EUPHA Section on Social Security and Health	<p>Challenges in comparative, epidemiological studies of sickness absence in Europe - The 9th pre-conference arranged by the EUPHA Section on Social Security and Health</p> <p>Welcome with coffee / tea & surprise!</p> <p>Opening, <i>Kristina Alexanderson, President of the EUPHA section on social security and health</i></p> <p>Introduction to the topic of comparative studies in sickness absence, <i>Ute Bultmann and Angelique de Rijk, The Netherlands</i></p> <p>Experiences with cross country studies on sickness absence, <i>Jan Hogelund, Denmark</i></p> <p>Experiences of other researchers with European cross country studies: results of a pilot inquiry, <i>Ute Bultmann and Angelique de Rijk</i></p> <p>1st discussion in groups: brainstorm and listing considerations in preparing comparative research Moderator: <i>Gunnel Hensing, Sweden</i></p> <p>Funding for comparative research, <i>EU - representative</i></p> <p>Considerations in preparing comparative research: Spanish-Dutch experiences, <i>Fernando Benavides, George Delclos, and David Gimeno, Spain</i></p> <p>2nd group discussion about subthemes in a European guideline for comparative research in sickness absence Following the bartender model, Moderator: <i>Ute Bultmann</i></p> <p>Reports from the bar tenders, Moderator: <i>Ute Bultmann</i></p> <p>Discussion: Summing up of the day & agreements on how to proceed, <i>Angelique de Rijk</i></p> <p>Dinner: For all participants where discussions will continue</p>
9:00 - 17:00 Bella Center B4 M7	EUPHA Section on Child and Adolescent Public Health	<p>Qualitative research methods and dissemination of qualitative interviews studies on patients' experiences via the International DIPEX group</p> <p>Chairs: <i>Sue Ziebland, United Kingdom and Auke Wiegersma, The Netherlands</i></p> <p>Introduction to the pre-conference workshop</p> <p>Section I: Qualitative Research Methods workshop Chair: <i>Auke Wiegersma, The Netherlands</i></p> <p>What are qualitative research methods and why would we use them in health research? <i>Sue Ziebland and Sara Ryan, Oxford, United Kingdom</i> (title to be confirmed) <i>Joyce Lamerichs, The Netherlands</i></p> <p>Researching across and between multiple cultures, <i>Hannah Bradby, United Kingdom</i></p> <p>Section II: Qualitative Research Methods: Presentations of completed DIPEX International websites (Healthtalkonline, DIPEX Germany and DIPEX Spain) Chair: <i>Sue Ziebland, United Kingdom</i></p> <p>Help, demented! Patient and carer speak up? First results, <i>Manna Alma and Griet-Anne Banga, The Netherlands</i></p> <p>"Doctors blame everything on smoking, don't they?": rationalising and resistance amongst smokers, <i>Laura Griffith, United Kingdom</i></p> <p>Discussion and close-up</p>

TIME/LOCATION	ORGANISER	ACTIVITY
9:00 - 17:00 Bella Center B3 M7	French School of Public Health (EHESP)	<p>Management in public health and healthcare organisations – from theory to practice Opening Remarks, <i>Antoine Flahault, Dean of EHESP and President of ASPHER</i> Programme Presentation and Organisation, <i>Stéfane Kabene</i> Issues and Challenges in Management of Health Services Deliveries, <i>John M. Cachia</i> Interprofessional Collaborative Practice Teams and Quality Improvement, <i>Carole Orchard</i> Recruitment and retention of Healthcare Professionals, <i>Stéfane Kabene</i> Cost effectiveness of Healthcare delivery, <i>Laurent Degos, Armelle Leperre-Desplanques</i> Round table 1: Profiling the Manager in Healthcare: Competencies and education Round table 2: Ethical Aspects and Social Accountability of Healthcare Education Concluding Remarks</p>
9:00 - 17:00 Forest Garden Nacadia	Forest & Land- scape, University of Copenhagen	<p>Nature & Public Health Keynote speakers: <i>Ritch Mitchell, United Kingdom</i> <i>Jolanda Maas, The Netherlands</i> <i>Jens Troelsen, Denmark</i></p>

ROUND TABLE DISCUSSION

”Advancing health and welfare through vaccination Benefits and Challenges of routinizing vaccines”

10 November 2011, 10:00-11:30, Copenhagen

Organised by EUPHA, supported by an unrestricted grant from Sanofi Pasteur MSD

Vaccination coverage in a population is an indicator of sustainable development. Vaccines do not only prevent diseases and their complications, they also help avoid or reduce their social, psychological and economic outcomes: hospitalisations, pain, distress, sickness absence, child care. Senior vaccination contributes to healthy and active ageing. Reduction of vaccine preventable diseases improves the functioning of hospitals, day care centres, education and business.

Yet many recommended vaccines remain underused with important health consequences and societal costs. Since the beginning of 2011 there has been a worrying resurgence in cases of measles in 24 European countries, with in some areas five times more cases than in 2010. Many outbreaks and hospitalisations have been reported, particularly in France, Spain, Switzerland, Belgium, the UK and Germany. Though measles vaccination has been recommended for many years in these countries, the overwhelming majority of cases were non-vaccinated subjects. This situation illustrates the challenges of routinizing vaccines:

- How to better inform the lay public and change attitudes?
- How should governments promote their health policy to increase vaccination uptake?
- How to improve access to and opportunities for prevention?

The objectives of this roundtable are to

- remind the public health impact and societal costs of suboptimal coverages of recommended vaccinations (eg measles, flu, pertussis, HPV)
- show the individual and collective benefits of routine vaccination in terms of both health and welfare (eg psychosocial burden, societal consequences of disease);
- better understand the main barriers and drivers, and explore innovative ways to improve the acceptance, access to and effective implementation of vaccination, using good practices, better cooperation and insights from social sciences

The speakers of the round table will try to answer these questions and propose relevant approaches and practical actions. This will be illustrated by measles and HPV vaccination. The audience will have the opportunity to ask questions to the panellists and open a debate.

The expected outcome of this session is to provide the participants with data, arguments and guidance to improve the routinization of vaccines and help maximize the benefits of vaccination for individuals and society's benefit.

"Advancing health and welfare through vaccination Benefits and challenges of routinizing vaccines"

10:00 - 10:10	<p>Session I: Introductory remarks</p> <p>Suggestion: eg Historical perspective on health and welfare improvements provided by vaccination. Today's challenges.</p>	<p>Chair: Ruth Gelletlie, EUPHA Infectious Disease Section and Health Protection Agency, Director of Emergency Preparedness and Response,</p>
10:10 - 10:25	<p>1. The health and welfare consequences of low measles vaccination uptake in Europe</p> <p>Public health impact and societal consequences of non-vaccination. Identification of main barriers.</p>	<p>M. Muscat, European Surveillance Network, Statens Serum Institute (Denmark)</p>
10:25 - 10:40	<p>2. The health and welfare impact of HPV diseases</p> <p>HPV psychosocial burden, the health and welfare benefits of vaccination as well as drivers and barriers to HPV vaccination</p>	<p>GL Mortensen, HPV specialist (Denmark)</p>
10:40 - 10:55	<p>3. New communication approaches to improve social acceptance</p> <p>How social sciences and new communication approaches can help understand both the challenges and drivers to vaccination. How they can provide authorities, healthcare professionals and the public health community with new methods, communication and implementation approaches.</p>	
10:55 - 11:15	<p>4. Latest EU Council recommendations on childhood immunisation: what is the expected impact on EU public health</p>	<p>PL Lopalco, European Center on Disease Control and Prevention, Scientific Advice Unit</p>
11:15 - 11:30	<p>Q&A session</p> <p>The objective is to open the debate with the audience</p>	<p>Moderator: Ruth Gelletlie</p>

Workshop: Improved data availability for the European Community Health Indicators; European Health Interview Survey, data collection pilot, and new DG SANCO dissemination tools</p> <p>Chairs: <i>Arpo Aromaa, Finland, Marieke Verschuuren, The Netherlands</i></p> <p>First results of the European Health Interview Survey (EHIS) and the outcomes of the European Community Health Indicators Monitoring project (ECHIM) data collection pilot, <i>Jörgen Thelen, Germany</i></p> <p>Plans for the future of the European Health Interview Survey (EHIS) and the revision of the questionnaire, <i>Bart De Norre, Eurostat</i></p> <p>Dissemination of European Community Health Indicators through the HEIDI data tool and wiki, <i>Karl Freese, European Commission</i></p>
13:45-15:15 Room B3 M7	Public health competencies	Open Society Foundations, Public Health Program	<p>5L. Round table: Monitoring in Health - Civil society's contribution to assessing and improving policies and practices</p> <p>Chair: <i>Erin Howe, United States</i></p> <p>What is community monitoring and how can it contribute to improving public health services? <i>Abhijit Das, India</i></p> <p>Community mobilisation to address health inequities in primary health care in Veliko Turnovo, Bulgaria, <i>Deyan Kolev, Bulgaria</i></p> <p>Community assessments of maternal and child health services in Neamt County, Romania <i>George Radulescu, Romania</i></p> <p>Why is community-generated evidence useful to improve public health policies and programmes and address health inequities? <i>Martin McKee, United Kingdom</i></p>

TIME/LOCATION	TRACK	ORGANISER	ACTIVITY
13:45-15:15 Room B3 M8	All inclusive public health		<p>5M. Overweight and nutrition</p> <p>Chairs: <i>Chris Birt, United Kingdom, Cathrine Lau, Denmark</i></p> <p>Significant changes in overweight rates in Russian adolescent population during the last two decades (1989-2009), <i>Diana Denisova, Russia</i></p> <p>Socioeconomic indicators as determinants of major weight gain: a follow-up study, <i>Tina Seiluri, Finland</i></p> <p>Sleep duration and overweight in European children - Is the association modified by geographic region? <i>Sabrina Hense, Germany</i></p> <p>Acquired tastes: Children's nutritional trajectories from birth to early childhood <i>Valeria Skafida, United Kingdom</i></p> <p>The association between availability of fast-food outlets and intake of fast-food <i>Charlotte Glümer, Denmark</i></p> <p>Negotiating health: the role of the World Health Organization in addressing the marketing of food to children, <i>Rachel Irwin, United Kingdom</i></p>
13:45-15:15 Room B4 M1	News in public health	EUPHA section on Public Health Practice and Policy	<p>5N. Workshop: Conflict, migration and public health</p> <p>Chair: <i>Natasha Muscat, Malta</i></p> <p>Three presentations on the subject from WHO/EURO, Italy and Malta</p> <p>Followed by an interactive discussion</p>
Oral sessions			
15:45-17:15 Aud. 10-11-12	Welfare and public health	EuroHealthNet	<p>6A. Round table: Tackling the gradient in health amongst children and their families: analysis of evidence and policies</p> <p>Chair: <i>Caroline Costongs, EuroHealthNet</i></p> <p>The Gradient Evaluation Framework (GEF), <i>John Davies, United Kingdom</i></p> <p>Applying Public Health Policies to Effectively Reduce Health Inequalities amongst Families and Children, <i>Annemiek Dorgelo, The Netherlands</i></p> <p>Social Capital and Social Inequality in Adolescents? Health in 601 Flemish Communities: a Multilevel Analysis, <i>Bart De Clercq, Belgium</i></p> <p>Policies to level the social gradient in health among families with children in four European welfare states, <i>Elisabeth Fosse, Norway</i></p>
15:45-17:15 Room 16	European public health	Open Society Foundations Public Health Program, Roma Health Project	<p>6B. Round table: Making better use of EU Structural Funds to reduce health inequalities: the perspective of marginalised groups</p> <p>Chair: <i>Tamsin Rose, Belgium</i></p> <p>Panel discussants: <i>Deyan Kolev, Bulgaria, Judith Klein, Mental Health Initiative, Charles Price, European Commission, Andor Urmos, European Commission, Carsten Rasmussen, European Commission</i></p>
15:45-17:15 Room 17	Health services and systems	Department of Public Health, ErasmusMC, Rotterdam	<p>6C. Workshop: enable mortality: indicator of health care performance?</p> <p>Chair: <i>Johan Mackenbach, The Netherlands</i></p> <p>Effectiveness of health care interventions; a literature review, <i>Martin McKee, United Kingdom</i></p> <p>Between-country variations in the timing of introduction of new interventions, <i>Ragnar Westerling, Sweden</i></p> <p>Association of mortality trends with health care interventions, <i>Rasmus Hoffmann, The Netherlands</i></p> <p>Selection of enable mortality indicators: a Delphi study, <i>Martin McKee, United Kingdom</i></p>

TIME/LOCATION	TRACK	ORGANISER	ACTIVITY
15:45 - 17:15 Room 18	Consumers and patients	Tilburg University in cooperation with NIVEL	<p>6D. Workshop: Direct-to-consumer advertising of prescription medicines Chair: <i>Diana Delnoij, The Netherlands</i> Empowering patients to access information on prescription medicines: the reform proposed by the European Commission, <i>Maria-Eva Foldes, The Netherlands</i> Consumer views on DTCA advertising, <i>Liset van Dijk, The Netherlands</i> Discussion: The perspective of consumers, <i>Monika Kosinska, EPHA</i> Discussion: The perspective of the industry Representative from the industry</p>
15:45 - 17:15 Room 19	Public health policy	EUPHA and EPHA	<p>6E. Round table: Lost in translation? The need to improve communication between research and policy Chairs: <i>Dineke Zeegers Paget, EUPHA, Natasha Muscat, Malta</i> From Mars and Venus to Lost in translation - introduction, <i>Dineke Zeegers Paget, EUPHA</i> Communication, communication, communication, <i>Monika Kosinska, EPHA</i> Round table discussion, <i>Natasha Muscat, Malta (moderator), Josep Figueras, European Observatory on Health Systems and Policies, José Martin-Moreno, WHO/EURO, Karl Freese, European Commission, Louise Gunning-Schepers, EUSanH, Walter Ricciardi, EUPHA president, Antoine Flahault, ASPHER president</i></p>
15:45 - 17:15 Room 20	Inequalities		<p>6F. Risk factors for psychological stress Chair: <i>Bo Netterstrom, Denmark</i> Cognitive ability in childhood and mortality during 45 years of follow up among Swedish men and women, <i>Tomas Hemmingsson, Sweden</i> Cognitive ability in adolescence associated with subsequent suicide and suicide attempt? How much is explained by psychological distress and personality factors? <i>Alma Sörberg, Sweden</i> Psychological distress among adolescents in Denmark, <i>Björn Holstein, Denmark</i> Parental separation and adult psychological distress: the role of material and relational pathways. Evidence from two British birth cohorts, <i>Rebecca Lacey, United Kingdom</i> Trajectories in the use of psychotropic medication before and after divorce: a register-based study in Finland 1995-2007, <i>Niina Metsä-Simola, Finland</i> Life-course risk factors for mental health problems in the 1987 Finnish Birth Cohort, <i>Mika Gissler, Finland</i></p>
15:45 - 17:15 Room BV1	Sickness absence		<p>6G. Sickness absence and pain Chairs: <i>George Delclos, Spain, Ulla Christensen, Denmark</i> Pain and disability retirement: a follow-up study, <i>Peppiina Saastamoinen, Finland</i> Sickness absence due to musculoskeletal diagnoses and risk of premature death: a nationwide, Swedish, prospective cohort study, <i>Catarina Jansson, Sweden</i> A randomized controlled trial of two different home-based exercise programs in Danish patients on sick-leave due to nonspecific neck and shoulder pain, <i>Nanna Rolving Rasmussen, Denmark</i> Work related psychosocial factors and return to work in sick listed employees with low back pain. A mixed method study, <i>Eva Ladekjær Larsen and Chris Jensen, Denmark</i> Effects of work-related factors on risk of disability pension due to low back diagnoses: a 30-year longitudinal study of Finnish twins, <i>Annina Ropponen, Finland</i> Implementing interorganisational cooperation in labour market reintegration: a case study <i>Christian Ståhl, Sweden</i></p>

TIME/LOCATION	TRACK	ORGANISER	ACTIVITY
15:45 - 17:15 Room BV2	Chronic diseases		<p>6H. Chronic diseases and sickness absence Chairs: <i>Iveta Nagyova, Slovakia, Karsten Thielen, Denmark</i> Interventions to enhance return-to-work for cancer patients: a Cochrane review <i>Angela de Boer, The Netherlands</i> Fatigue and its correlates in cancer patients who had returned to work, <i>Frank van Dijk, The Netherlands</i> Looking beyond return-to-work after cancer: a 5-year longitudinal cohort study among Dutch Post employees, <i>Ute Bültmann, The Netherlands</i> Disability pension after coronary revascularisation. A national follow-up study in Sweden 1994-2003 <i>Katharina Zetterström, Sweden</i> The effect on return to work and absenteeism of a multidisciplinary stress treatment programme <i>Bo Netterström, Denmark</i> Lived experiences of capacity to work while depressed and anxious - a phenomenological study <i>Monica Bertilsson, Sweden</i></p>
15:45 - 17:15 Room B3 M5	Public health research and innovation	EUPHA section Ethics in Public Health	<p>6I. Skills building seminar: Scientific integrity in public health research: what, why, how? Chair: <i>Els Maeckelberghe, The Netherlands</i> 1. Introduction: General Principles and its context (20 minutes) 2. Short discussion of the general principles (15 minutes) 3. Case analysis (40 minutes) 4. Results (15 minutes)</p>
15:45 - 17:15 Room B3 M6	Benefits and reliability of data collection	ECHO project consortium	<p>6K. Round table: ECHO: Dealing with validity and reliability in a performance measurement project Chair: <i>Enrique Bernal-Delgado, Spain</i> ECHO: the project, <i>Enrique Bernal-Delgado, Spain</i> Drawing out the variation attributable to healthcare provider, <i>Karen Bloor, United Kingdom</i> How population flows may affect mapping? <i>Lau Caspar Thygesen, Denmark</i> How much of the totals individual variation is at the area level? A simple multilevel model for reassessing small area variation in aggregated databases, <i>Juan Merlo, Sweden</i></p>
15:45 - 17:15 Room B3 M7	Public health competencies	EUPHA section on Migrant and Ethnic Minority Health	<p>6L. Workshop: Cultural Competences and Ethnic Minorities Chairs: <i>Vincent Lorant, Belgium, Walter Devillé, The Netherlands</i> Chronic Care Management and Culturally Competent Interventions in Type 2 Diabetes Mellitus: Walking together or following two opposite directions? <i>Marie Davrin, Belgium</i> Migrant status and access to health care services in Denmark, <i>Natasja Koitzsch Jensen, Denmark</i> Health status and primary care use by the Roma community in Europe: results of a literature review <i>Diana Pirjol, The Netherlands</i> Getting Access to Culture in Health, <i>Morten Terkildsen (tbc), Denmark</i></p>

Invitation to Malta 2012</p>

ANNUAL MEETINGS

All 18 EUPHA sections and the two new proposed sections are organising annual meetings during Copenhagen 2011.

Meetings of the following sections are planned for:

THURSDAY, 10TH NOVEMBER 2011

Public Health Epidemiology	Room BV2	15:30 - 16:15
Chronic Diseases	Room 16	16:00 - 17:00
Food and Nutrition	Room 17	16.00 - 17.00
Health Promotion	Room 18	16:00 - 17:00
Injury Prevention and Safety Promotion	Room 19	16:00 - 17:00
Migrant and Ethnic Minority Health	Room 20	16:00 - 17:00

FRIDAY, 11TH NOVEMBER 2011

Environment Related Disease	Room 17	11:45 - 12:30
Public Health Monitoring and Reporting	Room 18	11:45 - 12:30
Public Health Economics	Room 19	11:45 - 12:30
Public Mental Health	Room 20	11:45 - 12:30
Social Security and Health	Room BV 1	11:45 - 12:30
Urban Public Health	Room BV 2	11:45 - 12:30
Infectious Disease Control	Room B3 M6	11.45 - 12.30
Proposed Section on Health Impact Assessment	Room B3 M8	11:45 - 12:30
Child and Adolescent Public Health	Room B3 M5	12:30 - 13:30
Ethics in Public Health	Room B3 M6	12:30 - 13:30
Health Services Research	Room B3 M7	12:30 - 13:30
Utilisation of Medicines	Room B3 M8	17:15 - 18:15
Public Health Genomics	Room B3 M6	17:15 - 18:15
Public Health Practice and Policy	Room B3 M7	17:15 - 18:15

GENERAL INFORMATION

CONFERENCE INFORMATION FROM A-Z

Abstract book

Abstracts of all presentations in the scientific programme are published in the supplement of the European Journal of Public Health. You will find a copy in your conference bag.

ATM

Withdrawal of money is possible in the West Hall next to the reception.

Catering

Lunch and coffee is served in the exhibition area.

Cloak room

There will be a guarded cloakroom available on Thursday and Saturday. Cloakroom on Friday the wardrobe will be on your own responsibility.

Evaluation

We kindly ask you to fill in the online evaluation form – during the conference or after the conference via the website www.eupha.org

First aid and emergency service

A first aid officer will be available in the Conference Centre. Please ask the staff for help. Number for police – ambulance - fire brigade: Dial 112

Internet

Wireless internet is available free of charge in the entrance areas, in the foyer below the auditoria, in the exhibition area and on the 1st floor. The network is called BC-Guest, is open and requires no password. Kindly provided by EUPHA and ASPHER.

Local Transportation

The Bella Center has its own Metro Station called "Bella Center". It will take you 12 min. from the city centre. Please note that there is no metro stop at the Central Station. Please use the station called "Nørreport" instead. A map of the metro lines can be found on www.m.dk

Posters

The poster exhibition can be found in the B-halls on the ground floor. The moderated poster sessions will take place in the poster area. Please put up your poster at the poster boards assigned to you using the special tape provided in the hall. Posters should be removed from the boards from 14.00 on Saturday 11 November.

Registration/Hospitality desk - opening hours during the conference

Wednesday, 9 November	07.30-17.00
Thursday, 10 November	07.30-17.00
Friday, 11 November	08.30-17.00
Saturday, 12 November	08.30-14.00

Smoking

The European Public Health Conference is a non-smoking conference. Please move away from the entrance when smoking.

Speakers pre-view room

Speakers shall hand in their presentation to the technician in the morning of their presentation. The pre-view room is in BV 3 on the 1st floor.

Staff

You will recognize our staff by their green t-shirts with the text ASK ME.

SOCIAL PROGRAMME

WELCOME RECEPTION, THURSDAY, 10 NOVEMBER

There are two receptions: one at the City Hall and one in the Bella Centre. It is not possible to attend both. The welcome reception at the City Hall starts at 19.30 and is limited to 600 delegates. The welcome reception in the Bella Center starts at 18.45.

The delegates choose which reception they wish to attend when they register at the registration desk.

Dress: informal

CONFERENCE DINNER, FRIDAY, 11 NOVEMBER 19.30

We are happy to invite you to the conference dinner at Øksnehallen on Friday 11.11.11. Øksnehallen is a unique hall in the old Meat Packing District in the centre of Copenhagen. A great evening with good food and wine awaits you.

A limited number of dinner tickets will also be available at the registration desk on-site for the price of € 60.

Øksnehallen, Halmtorvet 11, 1700 Copenhagen, is situated just 5 min. walk from the central station.

Dress: informal

EXHIBITION FAIR

**The following organisations are presenting themselves at the exhibition fair.
Exhibitors are grouped on the basis of the nature of their activities.**

ORGANISERS

- European Public Health Association (EUPHA) (17)
- Association of Schools of Public Health in the European Union (ASPHER) (16)
- Danish National Institute of Public Health (14)
- Research Centre for Prevention and Health, Denmark (RCPH) (15)

HEALTH POLICY FAIR

- Netherlands Institute for Health Services Research (NIVEL) (10)
- French School of Public Health (9)
- European Science Advisory Network for Health (EuSANH) (7)
- European Commission (3A)
- European Observatory on Health Systems (11)
- European Centre for Diseases Control (2)
- National Board of Health Denmark (3)
- Nordic Council of Ministres (4)
- WHO Regional Office for Europe (5)
- Danish Regions (18)

JOURNAL / PUBLISHER FAIR

- Routledge - Taylor & Francis (12)
- Oxford University Press (OUP) (13)
- Sage publishers (SAGE) (6)
- Springer-Verlag GmbH (8)
- BioMed Central (1)

OPENING HOURS

November 10 13:00 – 18:00

November 11 08:30 – 17:00

November 12 08:30 – 14:00

INTERNATIONAL SCIENTIFIC COMMITTEE

Torben Jørgensen, Denmark (chair)
Niek Klazinga, Netherlands (past chair)
Julian Mamo, Malta (future chair)
Diana Delnoij, EUPHA
Antoine Flahault, ASPHER
