WELCOME

The European Public Health Association (EUPHA) and the Association of Schools of Public Health in the European Region (ASPHER) are very pleased to welcome you to the 6th joint conference combining the 21st annual EUPHA meeting and the 36th annual ASPHER meeting. We are pleased to present you this year again with a fully packed programme, including pre conferences, plenary sessions, workshops, oral sessions, poster sessions and poster walks. With the participation of over 1200 public health researchers, policymakers and practitioners from more than 50 countries, this conference remains the most important Public Health Conference in Europe.

The theme “Are we there yet: learning from the past, building the future” and the location (Brussels) of this year’s conference were selected to reflect both what has been achieved in Europe as well as where we need to go from here. And in this time of economic crisis, we will need to learn from the past instead of re-inventing the wheel and we also need to combine our efforts at European level wherever possible, rather than at individual country level.

In the organisation of the conference, we have also combined learning from the past with building the future. The successful organisation of the European Public Health Conferences in the past was used as a solid basis for Brussels 2013. At the same time, we have included a large number of European organisations and institutes in the setting up of the programme and in the organization.

We are very grateful to our full partners: the Belgian Association of Public Health and EuroHealthNet for their input and support for Brussels 2013.

We are also grateful to OSI, EHMA, ECDC, WHO Europe, the European Observatory on Health Systems and Policy, EPHA and the European Commission (DG Sanco and EAHC) for their constructive input in the organization of this conference.

In Brussels 2013, policymakers, researchers and representatives of the civil society have the unique possibility to exchange information, knowledge and ideas about how public health should develop further in Europe.

We hope our programme and our company in the heart of Europe will stimulate you.

Walter Ricciardi
EUPHA president

Helmut Brand
ASPHER president
PLENARY SPEAKERS

TONIO BORG, EU COMMISSIONER
Tonio Borg graduated as a Doctor in Laws from the University of Malta in 1979. He practiced law for fifteen years, specialising in human rights cases. Between 1990 and 1995 he served as member of the European Committee for the Prevention of Torture. Tonio Borg was elected to the House of Representatives in 1992 in the interest of the Nationalist Party. He was appointed Minister of Home Affairs in 1995 and in 1998 when he was also entrusted with other responsibilities including local government, environment, urban planning and management of state properties. Since November 2012, Dr Tonio Borg has served as Member of the European Commission responsible for Health and Consumer Affairs.

LAURETTE ONKELINX, FEDERAL MINISTER OF HEALTH, BELGIUM
Laurette Onkelinx was born in Ougrée. She graduated from the University of Liège where she studied Law. Between 1981 and 2003 she practiced law at the bar of Liège. Meanwhile, she was elected in the Federal House of Representatives in 1988 for the Socialist Party, representing the Liège region. Since then, she has held ministerial posts both at Federal and Community level. From 1993 until 1999 she was the first women to head the government of the French Community as Minister-President and as Minister responsible for education and health promotion. Since 2007, Mrs Onkelinx has served as Minister of Social Affairs and Public Health, and Deputy Prime Minister as well, in the successive governments of Guy Verhofstadt, Yves Leterme, Herman van Rompuy and in the current government of Elio di Rupo.

JEAN BOUSQUET, FRANCE
Jean Bousquet is a Full Professor of Pulmonary Medicine at the University of Montpellier, France. He is the coordinator of MeDALL (Mechanisms of the Development of Allergy, a Framework Programme 7 (EU) Integrated Project (2010-15)), Chairman of the WHO Global Alliance against Chronic Respiratory Diseases (GARD), the founder of ARIA (Allergic Rhinitis and its Impact on Asthma, in collaboration with the World Health Organization (WHO) and co-coordinator of Action Plan B3 of the European Innovation Partnership on Active and Healthy Ageing. He has edited and authored over 675 peer-reviewed papers posted on Medline. He was the editor of Allergy, the second ranking journal in the field, 2003-2009.

HELMUT BRAND, ASPHER
Helmut Brand is Jean Monnet Professor of European Public Health and head of the Department of International Health at Maastricht University, The Netherlands. He studied Medicine in Düsseldorf and Zürich and earned a Master in Community Medicine from London School of Hygiene and Tropical Medicine and London School of Economics. Prof. Brand is a specialist in Public Health Medicine. He was director of the Public Health Institute of North Rhine Westphalia. He is president of the Association of Schools of Public Health in the European region (ASPHER) and president of the European Health Forum Gastein (EHFG). He serves on the European Advisory Committee on Health Research (EACHR) of WHO Europe and on the Expert Panel on “Investing in Health” for the European Commission.
PLENARY SPEAKERS

KATJA DE SADELEER, EUROPEAN COMMISSION
Katja de Sadeleer graduated as Master of Arts and public international law (EC-law) from the University of Helsinki, Finland, in 1996. In 1997 she obtained the Master of Arts in European Studies from the College of Europe, Natolin, in Warsaw, Poland. In 1997, Katja de Sadeleer started working as a translator in the Translation Service of the European Commission in Brussels, Belgium. Four years later, in 2001, she moved to DG Enlargement, Slovakia Team, as an Administrator. Since 2003, she has been coordinating public health issues in DG Enlargement. Currently, her focus is on accession negotiations with Montenegro.

JOSEP FIGUERAS, EUROPEAN OBSERVATORY ON HEALTH SYSTEMS AND POLICIES
Josep Figueras is the Director of the European Observatory on Health Systems and Policies and head of the WHO European Centre on Health Policy in Brussels. He has served major multilateral organizations such as the European Commission and the World Bank. He is a member of several advisory and editorial boards. He is member of APHEA board of accreditation and honorary fellow of the UK Faculty of Public Health. In 2006, he received the Andrija Stampar Medal. His research focuses on comparative health system and policy analysis and is editor of the European Observatory series published by Open University Press. He has published several volumes in this field.

JULIO FRENK, UNITED STATES
Since January 2009, Julio Frenk is Dean of the Faculty at the Harvard School of Public Health. He served as Minister of Health of Mexico from 2000 to 2006, where he introduced universal health coverage. He was the founding director of the National Institute of Public Health of Mexico and has also held leadership positions at the Mexican Health Foundation, the World Health Organization and the Bill and Melinda Gates Foundation. He has been awarded three honorary doctorates. In addition to his academic works, he has written two best-selling novels for youngsters explaining the functions of the human body. In 2008, he received the Clinton Global Citizen Award for changing ‘the way practitioners and policy makers across the world think about health’.

TOMAŽ GANTAR, SLOVENIA
Tomaž Gantar graduated from the Faculty of Medicine in Ljubljana and specialised in urology. As a medical specialist, he worked for Izola General Hospital. In 1995, he was appointed a court expert in the field of surgery and became director of the hospital until 2004. While in charge of the hospital, he concluded his education in health-care management, economics, finance and accountancy in health-care institutions (GEA College), business excellence in health-care (GEA College), and medical liability (SEGLI). He was the Mayor of Piran Municipality from 2006 to 2010. During this time, he continued to work as a specialist at Izola General Hospital’s urology department.
SIR MUIR GRAY, UNITED KINGDOM
Muir Gray has worked in the Public Health Service in England since 1972. He has carried out a number of tasks for example the development of the National Screening Committee. Currently he is working one day a week as a Consultant in Public Health for the University of Oxford Hospitals NHS Trust, focusing on the Oxford AHSN. In the rest of his life he is developing Better Value Healthcare, whose mission is to publish handbooks and development programmes designed to get more value from health care resources in England, and worldwide. He is also a Director of the National Campaign for Walking, a small charity dedicated to promoting walking as the only type of activity relevant to tens of millions people.

BERNADETTE HANNIGAN, NORTHERN IRELAND
Bernadette (Bernie) Hannigan holds the positions of Director of R&I for Health and Social Care (Northern Ireland) and Chief Scientific Advisor to the Department of Health, Social Services & Public Safety. Previously she was Pro-Vice-Chancellor (Research & Innovation) at the University of Ulster where she continues in the role of Professor of Immunology. She was educated at Trinity College Dublin and the National University of Ireland. She has attracted significant external funding for research, published over 100 articles and books and supervised 21 doctoral students.

ZSUZSANNA JAKAB, WHO REGIONAL OFFICE FOR EUROPE
Zsuzsanna Jakab leads and guides the work of WHO in the European Region, and manages the Regional Office. From 2005-2010 Ms Jakab served as the founding Director of the European Union’s European Centre for Disease Prevention and Control (ECDC). From 2002 to 2005, she was State Secretary at the Hungarian Ministry of Health, managing the country’s preparations for EU accession in the area of public health. Ms Jakab holds a Master’s degree from the Faculty of Humanities, Eötvös Loránd University, Budapest; a postgraduate degree from the University of Political Sciences, Budapest and a diploma in public health from the Nordic School of Public Health, Gothenburg.

ROBERT JOHNSTONE, EUROPEAN PATIENTS FORUM
Robert Johnstone is chair of Access Matters, UK and board member of Assist UK, Cambodia's Children, National Voices, European Patients Forum and the International Alliance of Patients Organisations. He is Director of Midstream for training and employment for disabled people. He had Rheumatoid Arthritis for 55 years from the age of three and has accumulated a wealth of experience as a user of health services. Since 1990, he has voluntarily represented people with disabilities and chronic conditions locally, nationally and internationally. His motto is ‘The people have the right and duty to participate individually and collectively in the planning and implementation of their healthcare’ from the Alma Ata Declaration, WHO, 1978.
PLENARY SPEAKERS

Barbara Kerstiëns, European Commission
Barbara Kerstiëns, MD, MPH is the head of the Public Health Section within the unit of Infectious Diseases and Public Health in the Health Directorate of the Directorate-General for Research and Innovation at the European Commission. She has a long experience in international public health, working for Médecins Sans Frontières, Johns Hopkins Bloomberg School of Public Health and DG Development and Cooperation of the European Commission. She joined DG Research and Innovation in 2012. Her main interests lie in health services organisation and management.

Monika Kosińska, EPHA
Monika Kosińska is the Secretary General of the European Public Health Alliance (EPHA), a non-governmental organisation committed to bringing about change to national and EU policy that impacts on health, social justice and equity. She was previously acting Executive Director of a Think Tank to develop new thinking on future population challenges to health. She was a founder of EUREGHA, bringing together local and regional authorities from across Europe working on health. She is a representative on a number of high level groupings at European level, including the High Level Group on the Competitiveness of the Food Supply Chain and the High Level Group on the Reduction of Administrative Burden.

Alastair Leyland, Scotland
Alastair Leyland is Associate Director of the Social and Public Health Sciences Unit at the University of Glasgow and an Honorary Professor in the College of Medical, Veterinary and Life Sciences. He is an editor of the European Journal of Public Health and currently serves on the committee of the UK Society for Social Medicine and the Governing Board of EUPHA. He is also Vice-President of the EUPHA Section on Public Health Epidemiology. He has pioneered the development and application of multilevel modelling in public health and health services research and his current research interests include ways of improving our measurement and understanding of inequalities in health. He is Chair of the Local Organising Committee for the next EPH Conference in Glasgow in 2014.

Johan Mackenbach, The Netherlands
Johan Mackenbach is Professor of Public Health and chair of the Department of Public Health at University Medical Center Rotterdam, Netherlands. His research interests are in social epidemiology, medical demography, and health policy. He has (co-)authored more than 500 papers in international, peer-reviewed scientific journals, as well as a number of books. He is a former editor-in-chief of the European Journal of Public Health. He is actively engaged in exchanges between research and policy, among others as a member of the Health Council of the Netherlands and the Council for Public Health and Health Care. He is also a member of the Royal Netherlands Academy of Arts and Sciences, and honorary professor at the London School of Hygiene and Tropical Medicine.
MARTIN MCKEE, EUPHA
Martin McKee is Professor of European Public Health at the London School of Hygiene and Tropical Medicine where he co-directs of the European Centre on Health of Societies in Transition (ECOHOST), a WHO Collaborating Centre, and is research director of the European Observatory on Health Systems and Policies, a unique partnership of universities, national and regional governments, and international agencies. Professor McKee is also president-elect of the European Public Health Association. He trained in medicine and public health and has written extensively on health and health policy, with a particular focus on countries undergoing political and social transition.

ALOK MUKHOPADHYAY, INDIA
Alok Mukhopadhyay is the Chief Executive of Voluntary Health Association of India (VHAI), a federation of 27 State Voluntary Health Associations which includes more than 4,000 NGOs as well as 100,000 health workers. He began his work in the social sector to develop models of community based health and development, which were adopted by Government and NGOs in South Asia. He has authored many publications, including the ‘State of India’s Health’. He has advised WHO, The World Bank, Asian Development Bank and Government of India. He is a Member of the Board of Trustees, International Union for Health Promotion and Education, Paris. He is producer, director and writer of popular films on social issues.

CLIVE NEEDLE, EUROHEALTHNET
Clive Needle is Director for EuroHealthNet, a partnership developing health promoting policies and practices in Europe, directing its work on health in all EU policies and actions on social, economic and environmental determinants of health. He represents EuroHealthNet on numerous health, social and other public bodies and platforms and has frequently advised, chaired, or facilitated high level processes and events. He also works with the WHO, including advising, chairing and moderating processes for Nutrition & Physical Activity, Health Promoting Schools, Poverty and Health, Social Determinants, Transport and Environment. He is a member of working groups for the Public Health Action Plan as part of Europe 2020. He is a former Member of the European Parliament.

MARIANNE OLSSON, EHMA
Marianne Olsson is currently serving as president of the European Healthcare Management Association (EHMA). She works as director for the County Council of Sörmland and as an expert on health care equity by the Swedish Association of Local Authorities and Regions. She was project manager for the building of a new hospital in Göteborg and she worked as director of Quality Improvement at Sahlgrenska University Hospital, Sweden’s largest hospital. She also worked for the Federation of Swedish County Councils where she led successful national initiatives on improving care of persons with dementia and palliative care. She was the president of the Swedish Society for Quality in Health Care.
PLENARY SPEAKERS

PETER PIOT, UNITED KINGDOM
Peter Piot is Director of the London School of Hygiene & Tropical Medicine, and Professor of Global Health. He was founding Executive Director of UNAIDS and Under Secretary-General of the UN from 1995-2008. He co-discovered the Ebola virus in Zaire in 1976, and led research on AIDS, women’s health, and public health in Africa. He was professor of microbiology at the Institute of Tropical Medicine, Antwerp, the Free University of Brussels, a Senior Fellow at the University of Washington, a Scholar in Residence at the Ford Foundation, and a Senior Fellow at the Bill and Melinda Gates Foundation. He is a member of the Institute of Medicine of the US National Academy of Sciences, the Académie Nationale de Médecine of France, and the Royal Academy of Medicine, Belgium, and a Fellow of the Academy of Medical Sciences and Royal College of Physicians.

DOMINIQUE POLTON, FRANCE
Dominique Polton is Director of the Strategy, Research and Statistics Division at the National Health Insurance Fund (NHI) in France. Formerly, she was Director of the Institute for Research and Documentation in Health Economics (IRDES), and before that Head of the Health Economics Department at the Social Security Division of the Ministry of Health. She is trained as an Economist and graduated from the ‘École Nationale de la Statistique et de l’Administration Économique’. Her main publications concern comparative studies of health systems and their regulation policies. She is a member of the High Council for the Future of Health Insurance (HCAAM).

WALTER RICCIARDI, EUPHA
Walter Ricciardi is Professor of Hygiene and Public Health at the Catholic University of the Sacred Heart in Rome and Director of the Department of Public Health and Vice Dean of the Faculty of Medicine ‘A. Gemelli’ and Director of the local School of Public Health. He has been President of the European Public Health Association (EUPHA) since 2010. In 2011 he has been appointed Member of the European Advisory Committee on Health Research to the WHO and member of the Executive Board of the US National Board of Medical Examiners. He manages several undergraduate and postgraduate teaching activities. In 2010, the Minister of Health of Italy has appointed him in the Higher Health Council where he chairs the Public Health Section. He is editor of the European Journal of Public Health, the Oxford Handbook of Public Health Practice and Founding Editor of the Italian Journal of Public Health and of Epidemiology Biostatistics and Public Health.

HEIDI ROENNE MOELLER, DENMARK
Heidi Roenne-Moeller is a professional in the field of EU labour market and social policies. She is currently EU Advisor in the Danish Confederation of Salaried Employees and Civil Servants. Previously she was advisor at the Danish Confederation of Trade Unions. Her areas of expertise include the administrative burden of regulation on business, health and safety, environment, climate and energy. In addition, she has been appointed to the High Level Group on the Reduction of Administrative Burdens on behalf of the European Trade Union Confederation advising the European Commission. She holds a number of board and representative positions, including participation in official delegations representing Denmark and internationally. She was representative in the negotiations on youth employment under Social Dialogue and contributes to discussions on her areas of expertise at ministerial level.
ANDRZEJ RYS, EUROPEAN COMMISSION
Andrzej Rys is Director Health systems and products in DG Health and Consumers. He graduated as a medical doctor from Jagiellonian University, Krakow. He specialized in radiology and public health. In 1991, he established the school of public health at the Jagiellonian University and he was the director until 1997. From 1997 to 1999, he served as director of Krakow's city health department. In 1995-1999, he was the Polish director of the 'Harvard-Jagiellonian Consortium for Health'. In 1999, he became deputy Minister of Health in Poland and developed a new system of emergency medicine and a new education system for nurses. He was a member of the Polish accession negotiators team. In 2003, he established the Centre for Innovation and Technology Transfer at Jagiellonian University. He joined the European Commission in June 2006.

GUIDO VAN HAL, BELGIUM
Guido Van Hal is a medical sociologist with a PhD in medical sciences. He is a professor at the University of Antwerp, Research Unit Medical Sociology and Health Policy, Research Group Epidemiology and Social Medicine, working in the field of cancer screening and licit and illicit drug use. He is head of the Centre for Cancer Prevention at the Antwerp University (Belgium). He was promoter of the Flemish pilot project for colorectal cancer screening and is involved in the Belgian National Cancer Plan. Besides, he is involved in the EPAAC project (European Partnership for Action Against Cancer). He organized the First European Symposium on Substance Use in Students. He has extensive experience with quantitative and qualitative research in the field of drug use.

KIERAN WALSHE, UNITED KINGDOM
Kieran Walshe is Professor of Health Policy and Management at Manchester Business School, UK. He is also associate director of the National Institute of Health Research. He is editor of the journal Health Services Management Research, board member of the UK Health Services Research Network and of the European Health Management Association (EHMA). He has twenty years' experience in health policy, health management and health services research. He has previously worked at the University of Birmingham, the University of California at Berkeley, and the King's Fund in London, and has a professional background in healthcare management. He has written for a wide range of academic and professional journals.
### PRE-CONFERENCES

#### 11th Pre-conference on social security and health: How to gain knowledge on consequences of sickness absence or disability pension

**Chairs:** Ellenor Mittendorfer-Rutz, Sweden, Ute Bültmann, The Netherlands and Kristina Alexanderson, Sweden

**Welcome and introduction:** What are possible consequences of being sickness absent or on disability pensioned? *Kristina Alexanderson, Sweden*

- What studies have so far been conducted on consequences of being sickness absent or on disability pensioned? *A literature review, Ellenor Mittendorfer-Rutz, Sweden*
- Methodological challenges in research on consequences of sickness absence and disability pension? *Jari Haukka, Finland*

**Group work 1:** Which methods are available and can be developed with respect to research on consequences of sickness absence and disability pension?

**Reports from groups,** *Moderated by Ellenor Mittendorfer-Rutz and Kristina Alexanderson, Sweden*

- How can we study consequences of being granted a disability pension? *Hugo Westerlund, Sweden*
- How can we study transitions between sickness absence, work, unemployment, and disability pension? *TBC*

**Methodological aspects of prevention studies related to recurrent sickness absence,** *Iris Arends, The Netherlands*

**Group work 2:** Which methods are available and can be developed with respect to intervention research related to consequences of sickness absence/disability pension?

**Reports from groups,** *Moderated by Ute Bültmann, The Netherlands and Kristina Alexanderson, Sweden*

- Panel discussion: What have we learned and how do we move forward? *Ellenor Mittendorfer-Rutz, Sweden, Ute Bültmann, The Netherlands, and Kristina Alexanderson, Sweden*
- Summing up of the day and agreements on how to proceed, *Kristina Alexanderson, Sweden*

**Dinner** where the discussions will continue is included in the registration fees (food is included in the registration fees, alcoholic beverages are not)

---

#### Pre-conference: Supporting a Healthy Nutrition Policy for Europe

**Chairs:** Chris Birt and Enni Mertanen, EUPHA Section on Food and Nutrition

**The key issues to be addressed, past mistakes, and prospects for the future** *Philip James, International Association for the Study of Obesity*

**The new WHO European Region Nutrition Action Plan**, *João Breda, WHO Europe*

**NCD: Healthy and unhealthy fats: policy implications**, *Simon Capewell, United Kingdom*

**Deficiencies of vitamins and trace minerals**, *Ted Tulchinsky, Israel*

**Retailing and marketing of food**, *Tim Lobstein, International Association for Study of Obesity*

**The food industry and its advertising policies**, *Ruth Veale, European Consumer Organisation*

**Sustainable diets: integrating environmental and ethical concerns into nutrition policies** *Sue Dibb, Eating Better: for a fair, green, healthy future*

**Legislation, taxation, subsidy policies to support healthy nutrition** *Oliver Mytton, University of Oxford, United Kingdom*

**Making it happen: the political challenge**, *Monika Kosinska, EPHA*

**General discussion**

VACCINES EUROPE

LUNCH MEETING

Friday 15 November
The Arc, 12:30-13:30

The Last Mile Challenge for Vaccination:
Are we there yet?

Vaccination is the most effective public health intervention but to take full advantage immunization programmes should be fully implemented. Today several recommended vaccines remain underused with important health consequences and societal costs. While keeping seniors healthy is critical in the face of a major demographic shift, flu vaccination coverage in almost all EU Member States fell short of WHO and EU objectives. Since 2010 there has been worrying resurgences in cases of measles in 24 European countries, with an increasing numbers of outbreaks, hospitalizations and exported cases across Europe. Despite recent efforts from authorities, more needs to be done at national and EU level to tackle these public health challenges.

- Why there is a decreased coverage in flu and measles? Have recent campaigns paid off?
- How can we optimize the impact of influenza vaccination given low coverage vaccination rates and vaccine effectiveness values not as high as expected?
- How could innovative communication techniques help GPs and general public?
- What role does the industry play?

The speakers of the round table will try to answer these questions and propose relevant approaches and practical actions. Programme:

Introduction
Missed vaccination opportunities and public health consequences: the state of measles and flu in Europe
Maximizing the public health benefits of vaccination: a modeling study applied to influenza
The missing link in vaccination policy-making: innovative communication to address vaccine hesitancy
The last mile challenge: What can the vaccine industry contribute to?
Panel discussion - Q&A with the audience

This Lunch Meeting is organised by

Vaccines Europe
An industry for healthy lives
Oxford University Press and EUPHA are delighted to offer participants at Brussels 2013 free online access to the European Journal of Public Health from 30 October 2013 until 31st January 2014.

The rationale behind this wonderful offer is twofold
1. To build your capacity and knowledge beyond the four days of the conference.
2. The organisers of the European Public Health Conferences have decided to put more emphasis on ‘GOING GREEN’, by not organising a hard copy of the abstract supplement, but allowing this online access instead.

How do I access the EJPH in this period?
We have tried to make this as easy as possible for you, by going to: www.eupha.org and clicking on Login to EUPHA. You can use the same login and password you have used for registering for the conference. Once you enter our system, you will see the link to

**European Journal of Public Health:**
Access the latest copy of the EJPH
EUPHA Bookclub

Accessing the latest copy of the EJPH will bring you to the EJPH homepage with access to all articles, supplements and the archive. As an extra service, we are also offering you the EUPHA Bookclub, where you can order OUP books at reduced rates.

We wish you a pleasant three months trial!

### M3. Public health and infectious diseases
- **Chairs:** Aura Timen, The Netherlands and Sofia Ribeiro, Portugal
- Development of critical recommendations representing good quality of response to infectious disease outbreaks, *Evelien Belfroid, The Netherlands*
- Evaluation of tuberculosis treatment at Hlengisizwe community health centre, Hammarsdale, South Africa, *Onyeka Okoli, South Africa*
- Risk factors for developing drug-resistant tuberculosis from regular tuberculosis in Armenia: a case–control study, 2012, *Ruzanna Grigoryan, Armenia*
- Global burden of listeriosis, *Charline Maertens De Noordhout, Belgium*
- Airborne antibiotic resistant bacteria in a solid waste recycling plant: a crucial area for public health actions, *Beatrice Casini, Italy*
- What school children know & think and their parents do in relation to ticks and Lyme borreliosis in The Netherlands, *Fedor Gassner, The Netherlands*

### N3. Skills building seminar: Well – being concepts and measurement
- **Chairs:** Jutta Lindert, Germany and Claudia Stein, WHO Europe
- Policy of well-being: The European Health 2020 policy and the case for measurement of well-being, *Claudia Stein, WHO Europe*
- Monitoring well being, *Robert Manchin, Belgium*
- Challenges to match policies, monitoring and research – a systematic review on measurement of well being, *Jutta Lindert, Germany*

### O3. Workshop: Pampers or pamper? Should we celebrate an ageing population or fear it?
- **Chairs:** Iveta Nagyova-Rajnicova, Slovakia and Walter Ricciardi, Italy
- The demographic challenge in Europe, *Jean-Marie Robine, France*
- Older people in Europe: under attack from all directions, *Martin McKee, United Kingdom*
- The problem: high burden on the health system? *Judith de Jong, The Netherlands*
- The ageing population: What can early intervention offer? *Christiane Stock, Denmark*
- Elderly Safety in Europe. Agenda for action, *Johan Lund, Norway*
- The ageing population: ethical challenges for contemporary society, *Els Maeckelberghe, The Netherlands*

### P3. Inequalities 2
- **Chairs:** Olivier Grimaud, France and Stecy Yghemonos, EuroHealthNet
- Prevalence and determinants of prenatal depression symptoms in a Romanian sample of pregnant women: a comparative analysis across socioeconomic groups, *Alexandra Brinzaniuc, Romania*
- Missing women? The health inequalities impact of low control and gender discrimination: a theory–led systematic review of observational studies, *Andy Pennington, United Kingdom*
- Can we predict pregnancies requiring intervention based on the area in which a woman lives? *Erin Mercer, United Kingdom*
- The influence of family and school on adult social position: findings from the Aberdeen Children of the 1950s study, *Ruth Dundas, United Kingdom*
- Is Helsinki a regular metropolis: what has been the impact of increasing social segregation on avoidable mortality? *Markku Lehikoinen, Finland*

Abstract Supplement
Abstracts of all presentations in the parallel programme are published in the Supplement to the European Journal of Public Health which can be accessed through your personal login at www.eupha.org. Delegates of the 6th EPH Conference have free access to the Supplement for a period of three months.

ATM
The nearest ATM for cash withdrawals is located just outside the conference venue. Leave the main entrance and turn right, on the corner of Stuiverstraat / Rue des Sols.

Business Centre
There is no business centre or copy and print service available in SQUARE.

Catering
Lunch and coffee are served in the Grand Hall 1 at Level -2. It is not allowed to take your lunch and/or drinks with you into the conference rooms.

Conference badge
Please wear your badge at all times during the conference, welcome reception and dinner. It gives you access to all activities for which you have registered. For replacement of lost badges or other badge-related matters, you are kindly referred to the Conference Registration Desk.

Conference hosts
You will recognise our hosts by their green shirts with the conference logo. They are happy to help you with your questions.

Cloakroom
You will find the cloakroom in the Copper Foyer, please follow the signs. Use of the cloakroom is at own risk and responsibility.

Downloads
Photographs and plenary session presentations will be published on www.eupha.org/Brussels2013.

Emergency
The SQUARE emergency number is 0032 (0)2 515.13.33. In an emergency situation and for First aid, please contact a conference host.

Evaluation
After the conference you will receive an email with a link to a digital Conference Evaluation Form. Your response will be used to organise even better meetings in the years to come.
**Film festival**
During the conference, the Open Society Foundations Public Health Programme will be showing several short films on topics related to health and human rights. These films can be viewed at the OSF booth in the exhibition space during breaks, and there will be screenings of longer documentaries in the plenary room (Gold Hall) during lunch on Friday 15 and Saturday 16 November.

**Insurance**
The Foundation EPH Conference / EUPHA cannot accept liability for personal accidents or loss of or damage to the private property of participants and accompanying persons, either during or indirectly arising from attendance of the 6th EPH Conference. Participants should make their own arrangements with respect to health and travel insurance.

**Internet / WIFI**
There is free wireless internet access in the whole conference centre SQUARE.

Guest User Name: ephc
Password: ephc13

**Language**
The official language of the conference is English.

**Lost and found**
Please contact the Conference Registration Desk at the entrance.

**Mobile phones**
Please turn off your mobile phones during the sessions.

**Mobility constraints**
The conference venue is equipped with elevators. Wheelchair users and disabled participants may need assistance in using the elevators: please do not hesitate to ask the conference hosts.

**Posters**
The posters and poster walks can be found in Grand Hall 2, Level -2. For the presentations of the poster walks there are headsets available. Hosts will help you with instructions for use.

**Smoke-free**
We are happy to offer an entirely smoke-free conference.
WELCOME RECEPTIONS

**Date:** Thursday 14 November 2013  
**Time:** 19:30 - 21:00 pm  
**Dress:** informal

**CITY HALL**  
*Grand-Place / Grote Markt*

Mr Freddy Thielemans, Mayor of the City of Brussels, and the Belgium Association of Public Health kindly host the Welcome Reception at the City Hall of Brussels.

**HOW TO GET THERE:**
The Town Hall is situated at walking distance from the Conference Venue  
Metro: Line 1 and 5: stop at Centraal Station / Gare Centrale

**EUROPEAN PARLIAMENT**

**HOW TO GET THERE:**
Metro: Line 1 and 5: stop at Maalbeek/Maelbeek (300m walking distance)  
Metro: Line 2 and 6: stop at Troon/Trône (300m walking distance)  
Train: Station Brussels Luxembourg

CONFERENCE GALA DINNER

**Date:** Friday 15 November 2013  
**Time:** 19:00 - 00:00 pm  
**Venue:** Area 42, Paleizenstraat 46a / Rue des Palais 46a  
**Dress:** informal

A memorable gala dinner will be organised in a very interesting venue. Area42 is designed by architect Michel Polak. He designed various buildings in Brussels during the 1920s and 30s. He was a master in perfectly combining architectural style like art deco, classicism and modernism. The dinner you will enjoy will be served at your table by Silverspoon Exclusive Catering & Events.

**HOW TO GET THERE:**
Metro: Line 2 and 6: stop at Kruidtuin / Botanique (900m walking distance)  
Tram: Line 92 and 94: stop at Sint Maria / Sainte Marie
