

Société Française de Santé Publique (SFSP)

Four images in Public Health in France

Wednesday 20th of November 2019

9am – 17pm

9:00: Opening and welcoming

Yves Charpak (MD, PhD), Vice-president of Société Française de Santé Publique, Chair of the Conference Marseille 2019

Emmanuel Rusch (MD, PhD), President of Société Française de Santé Publique

9:15 – 10:45: Session 1 – Access to care for migrants and rights for sick foreigners: how do health systems organize themselves?

In the current context of generalized demographic transition and unequal distribution of resources in the world, it seems essential to re-analyse how migration of populations question the organization of health systems. The search for solutions: opening the systems without endangering fragile national or subnational balances, to be able to adapt/accommodate, can only be done through a common and multidisciplinary reflection, the sharing of experience from here and there.

Thanh Le Luong (MD), Health division director, French Office for Immigration and Integration (OFII)

Claire Georges (MD), National Association of Permanences of Access to Health Care (PASS)

Nicolas Vignier (MD, PhD), Head of Public Health Unit, Groupe hospitalier Sud Ile-de-France, associated researcher, Research team in social epidemiology, IPLESP, Inserm UMR 1136

Belgacem Sabri (MD, MHA), Tunisian Association for the defense of right to health

10:45: Break

11:00 – 12:30: Session 2 - Tobacco, alcohol, nutrition and physical activity in France

Present situation of France's policies and interventions on these four main determinants of health. If the objective of improving the health status of the population is obvious, resistance to the implementation of new systemic prevention strategies remains and questions the means used to achieve it.

Viet Nguyen-Thanh (MSc), Head of the Addiction Unit, Public Health France

Anne Vuillemin (PhD), Professor in Physical activity and health (Côte d'Azur University) and Secretary General of the French Society for Public Health (SFSP)

Chantal Julia (MD, PhD), Associate professor in medicine, Paris XII University

Marie-José Augé-Caumon (PharmD), Co-author of the report « Alcohol and tobacco addictions » by the Economic, Social and Environmental council (CESE)

12:30 – 13:30: Lunch

13:30 – 15:00: Session 3 - Big data in Health in France: tools and issues

How is this emerging field structured in France and how does it enrich the existing (cohorts, national databases), including the presentation of the National Health Data Hub project, unique in Europe. Moreover, particular emphasis will be placed on the tension between the

use of these new tools facilitating the production of knowledge and the ethical and regulatory issues related to their use, especially with regard to personal data protection.

Marie Zins (MD, PhD), Paris-Descartes University, Scientific Director of CONSTANCES cohort

Marc Cuggia (MD, PhD), Professor, Université de Rennes and Hospital Center of Rennes

Jean-François Delfraissy (MD, PhD), Chair of the National Ethics Advisory Committee

Lydia Morlet-Haïdara (PhD), Associate Professor, Université Paris-Descartes, Institute Law and Health (Institut Droit et Santé),

15:00: Break

15:15 – 16:45: Session 4 – The challenges of Public Health actions at the city level

The aim of this session is to show how cities are involved in health without an explicit mandate, even though they are at the forefront of citizen-user demands. Cross-presentation of experiences and glances to understand how the local level takes care of health issues, between brakes and levers.

Patrick Padovani (MD), Deputy Mayor of Marseille in charge of Health

Didier Febvrel (MD), Chair of the Health Territory Factory

Anne Tallec (MD), Director of Regional Health Observatory Pays-de-la-Loire (RHO)

Aurélie Tinland (MD), Hôpitaux de Marseille, Université Aix-Marseille

16:45-17:00: Conclusion
