Pre-conference to the 12th European Public Health Conference

Health Impact Assessment (HIA) institutionalization and multisectoral collaboration in Europe

Wednesday 20 November 2019, 09:00 - 17:30

Marseille Chanot, Palais des Congrès et des Expositions, Marseille, France

Organised by:

European Public Health Association (EUPHA) HIA Section, International Association for Impact Assessment (IAIA) Health Section, National Institute of Health Doutor Ricardo Jorge (INSA), NRW Centre for Health (LZG.NRW), Wales Health Impact Assessment Support Unit (WHIASU)/Public Health Wales (PHW), World Health Organization (WHO) Regional Office for Europe

Background

The importance of health impact assessment (HIA) has been recognized and promoted through diverse international frameworks, statements and policies. However, only a limited number of countries or regions have developed HIA as a statutory process. While HIA is seen as a beneficial tool to support and enable Health in All Policies and intersectoral collaboration, it needs to advance and evolve into a tool that is consistently and routinely used to facilitate and maximise health and well-being and reduce and address inequalities.

Furthermore, as health is impacted by policies and decisions taken outside of the health sectors, health inclusive environmental assessments play an important role in addressing the Sustainable Development Goals (SDGs). For example, the integration of health into city planning can improve health and health determinants through more compact, efficient design of housing, transport, green spaces and other infrastructures. Thus, not only it ensures healthy lives and promotes well-being for all at all ages (SDG3) but also supports achieving sustainable cities and communities (SDG 11), builds resilient infrastructure, promotes inclusive and sustainable industrialization (SDG 9) among others.

While HIAs are mostly conducted voluntarily, environmental assessments such as Environmental Impact Assessments (EIA) and Strategic Environmental Assessments (SEA) are carried out based on legal regulations. By 2017 the revised EU Directive (2011/92/EU) on EIA had to be transposed into national legislation. Importantly the new Directive (2014/52/EU) includes explicitly "population, and human health" in the list of topics to be considered in an EIA. However, the directive does not provide a specific definition for any of the two terms, nor guidance on how to assess the potential health effects related to a project, or the necessary qualifications of professionals tasked with the assessment of these effects. To this respect, public health professionals need to become aware of the regulations of environmental assessments to be able to answer to the environmental experts question on possible health impacts, assess these impacts and if needed give their consent to projects.

The aims of this pre-conference are to strengthen the knowledge on HIA in Europe, to share experiences in institutionalizing HIA and integrating a broad consideration of health and well-being, the use of HIA in environmental assessments and other impact assessments, as well as sharing the latest research on HIA.

Programme

09.00 – 09.30	Opening by the organizers team	Chair: Piedad Martin- Olmedo, <i>Vice –</i> <i>President EUPHA HIA</i>
	Key Note Speech	tbc
09.30 – 10.30	Session 1 – Institutionalization of HIA across Europe (15 min./presentation + 15 min. Q/A) Institutionalization of HIA: what's going on in Portugal? HIA in context Challenges and perspectives for health impact assessment development in France	Chair: Odile Mekel, President EUPHA (HIA) Luciana Costa, Portugal Rainer Fehr, Germany Francoise Jabot & Ana Rivadeneyra, France
10.30 - 11.00	Coffee break	
11.00 -	Session 2 – Using HIA inside and outside the health sector	Chair: Teresa Caldas de
12.30	(15 min./presentation + 15 min. Q/A)	Almeida, <i>Portugal</i>
	The Villeneuve renovation program Health Impact Assessment	Lucie Anzivino, France
	Legacy of Paris 2024 Olympics bid: a rapid HIA	Muriel Dubreuil, France
	Towards a neighbourhood with positive health in a working class district of eastern Paris	Agnès Lefranc, France
	Strategic assessment of neighbourhood environmental impacts on mental health in the Lisbon Region (Portugal)	Adriana Loureiro, France
	Front-of-package nutrition labelling: HIA approach	Andreia Jorge Silva, Portugal
12.30 –	Lunch break and poster walk/presentations in small groups	Chair: Luciana Costa,
13.45	(5 min./poster)	Portugal
	Knowledge and Attitude towards the Gradual Reduction of Salt in	Alexandra Costa,
	Bread – an Online Survey	Portugal
	Assessing systematically the impact of urban projects on health	Jeanne Blanc-Fevrier,
	and social inequalities in health	France
	Perspectives of Strategic Environmental Assessment Practitioners	Ciara Logue, <i>United</i>
	on considering population and human health HIA on the Adoption of Recommendations regarding Urban	<i>Kingdom</i> Ausenda Machado,
	Operations in the Reconversion of Industrial Areas with	Portugal
	Contaminated Soils: Parque das Nações Case study	rortugur
	Assessing potential health gains of intervention measures by	Monika Mensing,
	modelling alternative scenarios for HIA in North Rhine-Westphalia (NRW)	Germany
	Improving all student's health through Municipal policy: a health impact assessment in Chambery, France	Lucie Anzivino, France

Programme continued

13.45 –	Session 3 - The role of HIA in achieving Health in All Policies and	Chair: Ben Cave, United
15.00	the SDGs	Kingdom
	(15 min./presentation + 15 min. Q/A)	
	The Public Health Implications of Brexit in Wales: A Health Impact	Liz Green, United
	Assessment (HIA) approach	Kingdom
	HIA of a Danish policy document on closing down the ghetto areas	Gabriel Gulis, Denmark
	Exploring the utility of HIA as a participatory approach within	Katie Hirono, United
	Health in All Policies	Kingdom
	Salt reduction in bread: Is it enough? Preliminary results of a HIA	Joana Santos, Portugal
	in Portugal	
15.00 -	Coffee break	
<i>15.30</i>	Cojjee break	
15.30 -	Session 4 – Integrating HIA in environmental assessments	Chair: Julia Nowacki,
17.00	(15 min./presentation + 15 min. Q/A)	Germany
	HIA of the Wylfa Nuclear Power Plant	Ben Cave & Liz Green,
	THA OF the Wylla Nuclear Fower Flant	United Kingdom
	HIA of the development plan of Geneva International Airport,	Nicola Cantoreggi,
	Switzerland: what effectiveness?	Switzerland
		Birgitte Fischer-Bonde &
	Integrating HIA in environmental assessments: practical examples	Sarah Humboldt-
	and policy mobilization	Dachenroeden,
		Denmark
	The situation of implementation HIA in the Czech Republic – HIA	Jana Loosová & Jiri
	and technological support via GIS	Šmída, Czech Republic
	Integrating health in EIA: a practitioner's experience	Senuri Mahamithawa,
		United Kingdom
17.00 –	Open questions and closing comments	Chair: Liz Green, United
17.30	open questions and dosing comments	Kingdom

Registration fee

The registration fee for this preconference is € 140, which includes networking lunch and refreshments.

Please note: Program still subject to change. Presenters will have to confirm their attendance by registering for the pre-conference through the EPH Conference system.
