

# 16<sup>TH</sup> WORLD CONGRESS ON PUBLIC HEALTH

## 12 – 17 OCTOBER 2020

### LA NUVOLA, ROME, ITALY

## PUBLIC HEALTH FOR THE FUTURE OF HUMANITY: ANALYSIS, ADVOCACY AND ACTION

The theme of the Congress, *Public Health for the Future of Humanity: Analysis, Advocacy, and Action*, reflects our firm commitment that we, in the global public health community, have an obligation to respond to emerging global threats and challenges. We must challenge and hold to account those with the power to make a difference. And we must act, making real our commitment to health in all policies. In a series of eight plenary sessions we will further explore these challenges.

In the first plenary, entitled '*What happened to the Enlightenment?*' we call on the public health community to recognize the threat that these developments pose and to acquire the skills necessary to combat them. Read more [here](#).

In the second plenary '*The Earth: a strategy for survival*' we ask people from different backgrounds how we can work together to tackle what is rapidly becoming a threat to the survival of humans and those with whom we share this planet. Read more [here](#).
