official congress partnership & exhibition prospectus

Released by the Official Hosts
the World Federation of Public Health Associations (WFPHA)
and the European Public Health Association (EUPHA)
and the Italian Society of Hygiene, Preventive Medicine and Public Health (SItI)
The World Congress on Public Health (WCPH) is held every two or three years by the World Federation of Public Health Associations (WFPHA). This time the Congress is organised by WFPHA together with the European Public Health Association (EUPHA) and the Italian Society of Hygiene, Preventive Medicine and Public Health (SItI).

In Rome 2020, we are expecting to attract more than 4,000 delegates. The Congress serves as an international forum for the exchange of knowledge and experiences on key public health issues, contributing towards protecting and promoting public health at a national and global level.

The theme of the Congress, Public Health for the Future of Humanity: Analysis, Advocacy and Action, reflects our firm commitment that we, as global public health community, have an obligation to respond to the ever changing circumstances on our planet. We must make visible the threats to health, some of which are already emerging. We must challenge and hold to account those with the power to make a difference. And we must act, making real our commitment to health in all policies.

**Invitation to Partner with the WCPH 2020**
We invite you to partner with us and participate in this major global event by choosing from the partnership opportunities and packages, individual partner options or exhibition prospects.

**What’s in it for business?**
Investment in public health and institutions can be cost-effective and provide multiple economic and social benefits for both the private and public sectors. In engaging with sectoral interests, we will foster collaborative efforts among governments, businesses, indigenous peoples, local communities, NGOs, and youth for a new approach with tangible commitments.

The WCPH 2020 represents a unique opportunity for all sectors to demonstrate its commitment and responsibility in public health to a global constituency. Public health is based on the premise of anticipating and preventing health problems, mitigating risks to health and protecting people from health hazards, and promoting health and well-being. In an ever-changing world, we recognise that important evidence comes from a variety of sources. This Congress therefore represents an unparalleled opportunity for you and your organisation to engage on a global platform.

La Nuvola is one of the most iconic buildings in the city of Rome. Awarded as Best Building Site from the Royal Institute of British Architects, the visionary building by Massimiliano Fuksas has been inaugurated in October 2016. Since then it has been acknowledged worldwide as a fine example of contemporary aesthetics, characterised by eco-friendly materials and innovative technological solutions.

Standing within a neighbourhood that is dominated by the architectural rationalism of the 1930s and 40s, it boasts technologically advanced ways of creating harmonic, fluid spaces, suitable for people who are permanently on the move and constantly interconnected.

It presents a floor area of nearly 60,000 sqm and 8,000 seats, distributed over three floors.

The venue is within walking distance from the metro B line connecting with the city centre. There is range of accommodation options available in the neighbourhood for delegates to book at the time of registering for the Congress.

Host City Rome, Italy

Founded nearly 3,000 years ago, the city is renowned for its ancient ruins, classical architecture, renaissance palazzos and baroque fountains. Nowadays, Rome is a vibrant, cosmopolitan city and will provide an elegant backdrop for the WCPH 2020.

Rome is a cradle of history and art. It is known all over the world as the Eternal City, a synonym for art, history and spirituality. The magnificence and unbelieveable number of historical monuments, churches, museums leave many visitors speechless. In addition to hotels and conference facilities there are up to date exhibitions, art galleries, theatres, cultural events which add a charming and relaxing flavour to participants’ stay in the city.

Modern Rome is also a major international business destination. It is the seat of the Italian government and the economy is dominated by services, IT, aerospace, defence and telecommunications companies, research, tourism, construction and banking.

As the saying goes “all roads lead to Rome” and the conference will bring together delegates from all over the world for the largest and most prestigious event for public health professionals, providing an abundance of business and networking opportunities, not to mention the chance to explore one of the world’s most fascinating cities.

How to arrive?

Rome is served by two international airports, both well connected to the city centre: Leonardo Da Vinci (Fiumicino) and G.B. Pastine (Ciampino). Both hubs are served by the major airline companies, including the low-cost ones. Moreover, Rome has an important railway link connected with the rest of Italy and Europe by high speed trains which offer the greatest efficiency at low costs. The central railway station, Termini, is in the heart of the historical centre and close to many hotels.
