What we do

General rules from submission to award

Grants

Grants are financial contributions from the European Union budget awarded by way of a donation to a third-party (= the beneficiary) engaged in activities that serve Union policies

A grant is a donation to finance

An action

The functioning
of a body

Grants fall into two broad categories:

1. Grants for actions

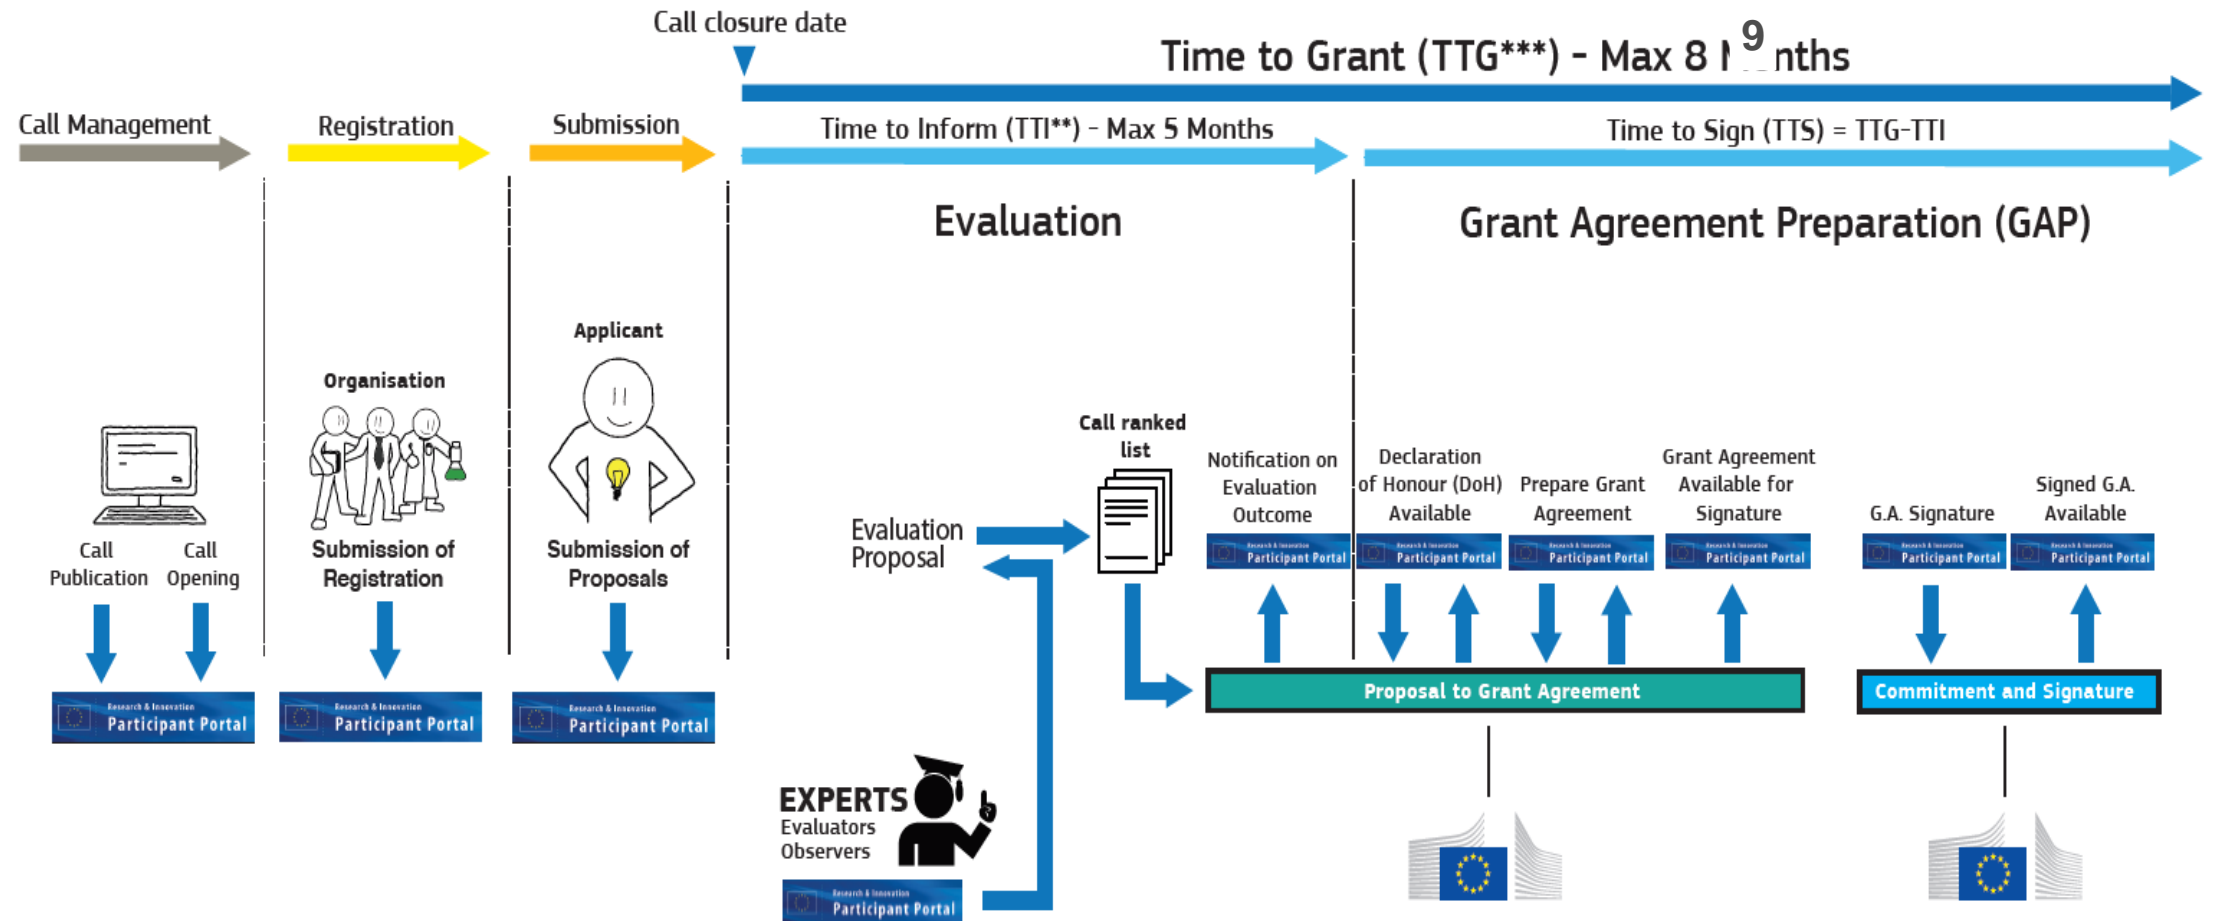

intended to help achieving objectives that are part of a Union policy

2. Operating grants

that finance the functioning of a body whose objectives are part of a Union policy. These are based on a work programme

→ The successful applicant for a grant becomes the "**beneficiary**". We can have **mono-beneficiary** and **multi-beneficiary**
