ABOUT US

The 16th European Public Health Conference is organised by the EPH Conference Foundation, a non-governmental and not-for-profit organisation, established at the initiative of the European Public Health Association (EUPHA).

EPH CONFERENCE FOUNDATION

The mission of the EPH Conference Foundation is to contribute to promoting greater health and well-being for the population in Europe by organising scientific conferences on public health in Europe on an annual basis. The conferences bring together public health professionals, including researchers, education and training specialists and policy makers from across Europe and beyond to develop new thinking and find meaningful solutions for future health challenges.

In organising the conference programme, the EPH Conference Foundation works together in partnership with a wide array of international public health organisations. Over the years, the EPH Conferences, which started as EUPHA Conferences 30 years ago, have grown into the largest annual public health event in Europe.

EUPHA

EUPHA is an umbrella organisation for public health associations and institutes in Europe. EUPHA is an international, multi-disciplinary, scientific organisation, bringing together around 40 000 public health experts for professional exchange and collaboration throughout Europe. EUPHA unites 45 national associations of public health, 27 institutional members, 10 individual members, 2 global members from 47 countries. EUPHA provides a leading scientific and independent voice in the field of public health and health services by building capacity and knowledge in the field of public health and health services and by supporting practice and policy decisions through scientific evidence.

EUPHA is dedicated to working in partnership with European and international intergovernmental and non-governmental organisations as well as with national institutes and organisations that are aligned with EUPHA's values and commitment to improve current and future health in Europe.

WELCOME TO DUBLIN 2023

OUR FOOD, OUR HEALTH, OUR EARTH: A SUSTAINABLE FUTURE FOR HUMANITY

Today, we find ourselves at a crucial turning point in history. The global climate is rapidly deteriorating. The interconnection between food systems, health and earth demands urgent and sustainable action to protect our planet and all its inhabitants. From deforestation and greenhouse gas emissions to water pollution and biodiversity loss, our choices in food production, distribution, and consumption directly affect the Earth's health. Equally concerning is the impact on human health and well-being, with rising rates of diet-related diseases and malnutrition threatening the lives of millions.

We now have no way out in terms of climate emergency. We must make choices which will determine the future of our advanced technological civilisation. We know what to do, to deliver a future for our society, but it's less clear that we will do it. In a few weeks' time, COP28 will take place and will hopefully address the urgent need for climate action. In the run-up to COP28, food systems and agriculture have received increasing diplomatic attention. This in itself is a hopeful sign as previous COPs have seen significant political opposition to actions to change food systems and save biodiversity. The current agenda calls on countries to align national food systems with national adaptation plans which include targets for food system decarbonization and biodiversity strategies.

The EPH Conference in Dublin hopes to open part of this discussion, with a focus on sustainability, food and health. Building a future, any kind of future, for us and our children, demands a new attention to sustainability. We will look specifically at global health, the use of digital tools, equity in health and the necessary staffing and skills to provide good care. We will, in line with the overall conference theme, look in depth at the climate emergency, and very specifically at the human food supply.

The plenary programme is organised in collaboration with our partners and discuss the conference theme in greater detail.

Anthony Staines
*Chair of Dublin
2023*

Martin McKee
*President EPH
Conference Foundation*

Plenary 1 *Transitioning to more sustainable food systems that support health and wellbeing*, organised by EuroHealthNet, focusses on what measures are urgently needed and must be prioritized to ensure more sustainable food systems and to improve health and well-being across Europe.

Plenary 2 *Commercial determinants of non-communicable diseases: the imperative for a systems approach*, organised by EUPHA and European Observatory on Health Systems and Policies, discusses the role of the commercial sector in global health and the value of a systems approach to understanding NCDs as outcomes of intricate systems.

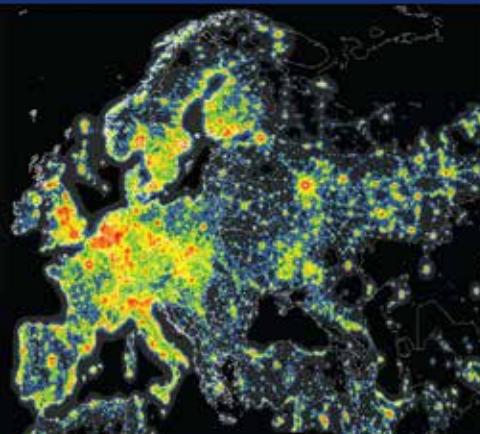

Plenary 3: *Building the future One Health workforce*, organised by ASPHER and EHMA, seeks to answer the question what skills are required to address the issues of global and planetary health, environmental degradation, health inequalities.

Plenary 4: *On the path to an equitable and sustainable digital future for European health systems*, organised by WHO Regional Office for Europe, is a round table discussion to examine inequalities surrounding access to, and the use of data and digital technologies in health care and public health.

Plenary 5: *Safeguarding health together: preparing the European Union's health priorities*, organised by European Commission and European Observatory on Health Systems and Policies, is a public debate on the health priorities of the European Union: what should be the priorities, where can the EU support Member States most effectively?

We are very pleased to welcome you to the 16th European Public Health Conference in Dublin. With the help of our partners we offer you an exciting programme of plenary sessions, workshops, presentations and poster walks. Our exhibitors are there to show you their latest publications, services and products. We hope you will have a chance to discover the literary past of Dublin but also we want you to learn something more about making our futures.

Oxford University Press and the European Public Health Association (EUPHA) invite you to publish your research in the European Journal of Public Health. The European Journal of Public Health is fully Open Access and has an impact factor of 4.4 and a 5-year impact factor of 4.2.

The **European Journal of Public Health** is a bimonthly multidisciplinary journal in the field of public health, publishing contributions from social medicine, epidemiology, health services research, management, ethics and law, health economics, social sciences and environmental health. The EJPH is fully open access and provides a forum for discussion and debate of current international public health issues with a focus on the European region.

EUPHA members can benefit from a 20% reduction on the Open Access charges.

If you wish to submit a paper to the journal reaching the widest audience possible, please go to:
www.oxfordjournals.org/our_journals/eurpub/for_authors/index.html

PLENARY SPEAKERS

Anthony Staines – Chair of the 16th EPH Conference 2023 and Professor of Health Systems

Anthony Staines is Professor of Health Systems at the Centre for Integrated Care and School of Nursing, Psychotherapy and Community Health, Dublin City University, Dublin, Ireland. He is an epidemiologist and a public health consultant whose research focusses on the uses of (digital) information in health care. He has a particular interest in child health and disability. Working closely with the Health Intelligence Unit in the Health Services Executive in Ireland, he has led a number of projects to deliver innovative health information approaches in Ireland and Europe. He teaches on programmes in public health and health systems within DCU, and on digital health in an innovative national programme led by the Health Services Executive. He was formerly the chair of the Irish Blood Transfusion service, and now leads St. Michael's House, one of the larger providers of services for people with Intellectual Disability in Ireland.

Simon Bacon – Professor at the Department of Exercise Science, Concordia University, Montreal, Canada

Simon Bacon is Full Professor at the Department of Exercise Science, Concordia University, Montreal, Canada. His research deals with the impact of health behaviours (e.g., physical activity, diet, weight management, stress) on the development and progression of chronic diseases (e.g., obesity, cardiovascular disease, COVID-19). He utilises multiple methodologies including epidemiological, psychophysiological, evidence syntheses, and behavioural trials designs. Currently, Simon Bacon is the co-chair in Artificial Intelligence and Digital Health for Health Behaviour Change and the Canadian Institutes Health Research (CIHR) – Strategy for Patient-Oriented Research (SPOR) Chair in Innovative, Patient-Oriented, Behavioural Clinical Trials. He is also a fellow of the Obesity Society, the Canadian Cardiovascular Society, and the Academy of Behavioural Medicine Research. In addition to Concordia University, Simon is co-director of the Montreal Behavioural Medicine Centre, a researcher at the Centre intégré universitaire de santé et de services sociaux du Nord-de-l'Île-de-Montréal (CIUSSS-NIM), and co-leads the International Behavioural Trials Network and the CIHR funded Canadian Behavioural Interventions and Trials Network.

Francesco Branca – Director of the Department of Nutrition for Health and Development, World Health Organization

Dr Francesco Branca is the Director of the Department of Nutrition for Health and Development in the World Health Organization, Geneva. During his tenure, WHO has established a new nutrition guideline development process and has developed a Comprehensive Implementation Plan on Maternal, Infant and Young Child Nutrition with six global targets. He has been leading the preparation of the 2nd International Conference on Nutrition. He has been a senior scientist at the Italian Food and Nutrition Research Institute (INRAN) where he was leading studies on the effects of food and nutrients on human health at the different stages of the life cycle and on the impact of public health nutrition programmes. He has been President of the Federation of the European Nutrition Societies from 2003 to 2007. Dr Branca graduated in Medicine and Surgery and specialized in Diabetology and Metabolic Diseases at the Università Cattolica del Sacro Cuore, Roma, Italy and obtained a PhD in Nutrition at Aberdeen University, United Kingdom.

Monica Georgiana Brînzac – Coordinator EUPHANxt

Monica Georgiana Brînzac PhD(c) holds two master's degrees in Healthcare Management and in Science, Technology and Innovation in Governance, and a bachelor's degree in Public Health. She works as a Research Assistant at Babeş-Bolyai University, Cluj-Napoca, Romania, delving into areas like medical deserts, health workforce, mental health, maternal, youth health and broader public health matters. Monica is an integral part of EUPHA, where she fulfils the role of EUPHANxt coordinator. She contributes to shaping and advancing European public health initiatives and discussions. Her multifaceted background and dedication to healthcare research and policy make her a valuable asset within both academic and public health spheres.

PLENARY SPEAKERS

Holly Cairns – TD for Cork South–West and Leader of the Social Democrats and party spokesperson on Agriculture, Food and the Marine; Rural Development; Social Justice; and Disability, Ireland

Holly Cairns is the Leader of the Social Democrats and party spokesperson on Agriculture, Food and the Marine; Rural Development; Social Justice; and Disability. She is a member of the Oireachtas Committee on Children, Disability, Equality and Integration. She was elected to Dáil Eireann in February 2020 in Cork South–West. In 2019, Holly Cairns won the final seat in the Bantry Local Election by a single vote. During her time on the Council, she made it her priority to highlight local environmental issues. Holly has a first class honours in MSc in Organic Horticulture from UCC. As part of her studies, she researched the methods and importance of plant adaptation in the face of unpredictable climates. Her background as a farmer and environmentalist inspired her to enter politics.

Luke Clancy – Director–General TobaccoFree Research Institute Ireland

Professor Luke Clancy is a founder and current director general of the TobaccoFree Research Institute Ireland (TFRI). He has held posts as Clinical Director CResT Directorate, St James's Hospital, Dublin, Medical Director of Peamount Chest Hospital, Dublin, and Associate Professor Respiratory Medicine at Trinity College Dublin. The diagnosis and treatment of lung cancer and the health effects of air pollution (outdoor and smoking) feature in his research work and he has made major research contributions in the areas of tuberculosis, asthma, lung cancer and smoking related diseases. He was a key player in the Dublin Coal Ban in the 1980s. Starting with reporting the increased mortality associated with the Dublin smog, which led to the ban on burning of bituminous coal and later as Chairman of ASH Ireland he led the Health Alliance which played a significant role in achieving the successful Smokefree legislation in Ireland in 2004. He has directed and co-ordinated respiratory research projects and led TFRI in policy-driven research (including the evaluation of 'Smokefree Ireland') nationally and internationally with some 300 peer-reviewed publications and numerous published reports, books and chapters in books on air pollution, tobacco control and tuberculosis.

Suzanne Costello – CEO, Institute of Public Health, Ireland

Suzanne is the Chief Executive of the Institute of Public Health. She has overall responsibility for the strategic direction of the Institute. With a background in senior management across a range of health and social issues, Suzanne joined the Institute as Chief Executive at the end of 2018. Prior to joining the Institute, Suzanne served at the CEO of Alcohol Action Ireland and also acted as the Interim Policy Programme Lead for the HSE's Alcohol Programme. Suzanne was Samaritans Executive Director for Ireland for six years. Suzanne has a primary degree in Social Science from University College Dublin, an MBS, and a Professional Diploma in Strategy, Innovation and Change from the Michael Smurfit Graduate School of Business and was a member of the inaugural Healthy Ireland Council.

Caroline Costongs – Director EuroHealthNet

Caroline Costongs is Director of EuroHealthNet, the European Partnership for improving health, social equity and wellbeing, based in Brussels. Caroline leads a multi-disciplinary team working on European Union and (sub)national policy, research and capacity building addressing health inequalities and the social determinants of health. She takes forward EuroHealthNet's MoU with WHO Europe (2021-2026), is active in various EU and WHO fora and advisory boards, is a member of the Economy of Wellbeing Expert Group for Finland and of the ICC – International Council for the European Public Health Conference. Caroline has a strong international background in public health and health promotion and a MSc in Public Health from the University of Maastricht in the Netherlands.

John Cuddihy – National Director of Public Health, Department of Public Health, Health Service Executive, Ireland

Dr. John Cuddihy is HSE National Director of Public Health. John has been involved in Public Health reform in Ireland from the Crowe Horwath review and report implementation to more recently leading the implementation of the Public Health reform programme. He has previously held positions as Director of Public Health, Director of HPSC and National Clinical Director of Health Protection.

Jerome de Barros – Policy Officer, Digital Health unit, Health and Food Safety Directorate General, European Commission

Jerome de Barros is policymaker at the European Commission (DG SANTE) with more than ten years of experience in Digital Health programmes and policies. He is developing the European Health Data Space (EHDS) legislation and IT infrastructures with a focus on data quality aspects, and secondary uses of data, including research and innovation. Prior to joining the Commission, he was Data Driven Innovation Lead for Health and Care at the University of Edinburgh, United Kingdom, working, among other projects, on the set up of the DataLoch, an infrastructure bringing together and leveraging health and social care data for the South-East Scotland region.

Isabel de la Mata – Principal Adviser for Health and Crisis Management, European Commission

Isabel de la Mata is currently the Principal Adviser for Health and Crisis Management in the European Commission. Previously, she worked as Counsellor for Health and Consumers at the Permanent Representation of Spain to the EU, as Deputy Director General for Health Planning at the Spanish Ministry of Health, as Adviser to the Vice-minister of Health and several other posts at the Ministry of Health of Spain and the Regional Departments in the Basque Country and in Madrid. In addition, she has been a member of the EURO-WHO Standing Committee of the Regional Committee, and has worked with the Pan American Health Organisation, the Inter-American Development Bank and the Spanish Agency for International Cooperation. Isabel de la Mata graduated in Medicine and Surgery by the University of Basque Country in 1983 and holds post-graduate degrees from the University of Leuven and Paris VI in Public Health, Hospital Administration and Statistics. She is a specialist in Preventive Medicine and Public Health.

Alisha Davies – Head of Research and Development, Health and Care Research Wales, United Kingdom

Prof. Alisha Davies is an National Health Services (NHS) Consultant in Public Health, Head of Research and Evaluation at Public Health Wales where she leads a multi-disciplinary division working alongside academic partners to address knowledge gaps in public health policy and practice. Also, she is the Health Lead for AI For Science and Government at The Alan Turing Institute, London, United Kingdom. She is a strategic leader in public health research and evaluation, informing health policy and practice at a local and national level. She has published on public health in a digital era with an emphasis on equity including a recent review for WHO Europe. She holds postgraduate degrees in epidemiology, demography and public health from the London School of Hygiene and Tropical Medicine, and an Honorary Professorship at Swansea University, United Kingdom.

PLENARY SPEAKERS

Josep Figueras – Director European Observatory on Health Systems and Policies

Josep Figueras (MD, MPH, PhD, FFPH) is the Director and cofounder of the European Observatory on Health Systems and Policies. In addition to WHO, he has served major multilateral agencies such as the European Commission and the World Bank and has worked as policy advisor in more than forty countries within the European region and beyond. He was Co-chair of the Scientific Advisory Board of the Monti Commission, and member of several governing, advisory and editorial boards including the governance board of the European Health Forum Gastein. He is an honorary fellow of the UK Faculty of Public Health; received the Andrija Stampar Medal for excellence in Public Health and a Doctorate Honoris Causa from Semmelweis University, Hungary; and he has three times been awarded the EHMA prize for best annual publication. He is currently a visiting professor at the London School of Economics and Maastricht University, Netherlands. He was director of the MSc programme in Health Services Management and lecturer at the London School of Hygiene and Tropical Medicine. Dr Figueras obtained his PhD from the University of London in 1993 on health policy and planning. He started his career as a specialist in Family and Community medicine in Spain.

Tedros Adhanom Ghebreyesus – Director-General of the World Health Organization

Dr. Tedros Adhanom Ghebreyesus has been WHO Director-General since May 2017. Born in the Eritrean city of Asmara, Dr Tedros holds a Doctorate of Philosophy (PhD) in Community Health from the University of Nottingham and a Master of Science (MSc) in Immunology of Infectious Diseases from the University of London. Dr Tedros served as Ethiopia's Minister of Foreign Affairs and as Minister of Health between 2005 and 2016. After taking office as WHO Director-General, Dr Tedros initiated a wide ranging reform of WHO. Under his leadership, WHO achieved gender parity in its senior leadership for the first time. Training and equipping health workers worldwide has been a priority area of his work. Work is ongoing to launch the first WHO Academy, offering new and more effective methods of training in many areas of health to working people. WHO has launched a new Values Charter, which identifies the five key values that define who we are: public service; technical excellence; integrity; collaboration; and compassion. Recognizing health for all requires partnership at all levels, and between all sectors of society, Dr Tedros has worked hard to engage stakeholders from a broad range of sectors, from civil society and government, to the private sector and beyond. Dr Tedros is globally recognized as a health scholar, advocate and diplomat. He has received awards from across the globe. These include a Honorary Fellowship from the London School of Hygiene and Tropical Medicine (2012) and more recently from the Royal College of Surgeons of Ireland (2020).

Anant Jani – University of Heidelberg, Germany and Fellow Oxford Martin School, Oxford University, UK

Anant Jani is a Research Fellow at the Heidelberg Institute for Global Health in Germany and the University of Oxford, United Kingdom. He focuses on understanding how we can improve population health by addressing social determinants of health. He is currently working on two large Horizon Europe projects exploring how we can redesign our food systems so that all Europeans can eat healthier and more sustainable diets (feast2030.eu) and how we can use novel financing mechanisms to fund interventions that promote health and prevent disease (Invest4Health). Prior to his research positions, Anant Jani worked in Europe and the Middle East to help healthcare systems within these countries to redesign their healthcare systems to focus more on value-based healthcare. Anant Jani has a PhD in immunology from Yale University.

Tim Lang – Emeritus Professor of Food Policy, City University of London, United Kingdom

Tim Lang was Professor of Food Policy at City from 2002 to 2021 and had founded the Centre in 1994 at Thames Valley University. After a PhD in social psychology at Leeds University, he became a hill farmer in the 1970s in Lancashire which shifted his attention to food policy, where it has been ever since. For years, he's engaged in academic and public research and debate about its direction, locally to globally. His abiding interest is how policy addresses the mixed challenge of being food for the environment, health, social justice, and citizens. What is a good food system? How is ours measured and measuring up? He has been a consultant to the WHO, FAO and UNEP and advisor to House of Commons Select Committee inquiries on food standards, globalisation and obesity. He was a Commissioner on the UK Government's Sustainable Development Commission (2006-11) and policy lead Commissioner on the EAT-Lancet Commission on Healthy Diets from Sustainable Food Systems (2016-19) which published the highly acclaimed 'Food in the Anthropocene' report (The Lancet, 2019). Tim Lang has written and co-written any articles, reports, chapters and books. His most recent books include: Feeding Britain (2020), Food Wars (2015), Unmanageable Consumer (2015), Ecological Public Health (2012). He grows vegetables and fruit in his London garden, and is President of Garden Organic, a civil society organisation promoting low impact food production.

Martin McKee – Professor of European Public Health, London School of Hygiene & Tropical Medicine, UK

Prof Martin McKee is Professor of European Public Health at the London School of Hygiene and Tropical Medicine. He qualified in medicine in Belfast, Northern Ireland, with subsequent training in internal medicine and public health. He was founding director of the European Centre on Health of Societies in Transition, a WHO Collaborating Centre, and which he led for over a decade. He is also research director of the European Observatory on Health Systems and Policies. He was chair of the Scientific Advisory Board of the Pan European Commission on Health and Sustainable Development (Monti Commission) and elected President of the British Medical Association for 2022/23. Martin McKee is a former Chair of the UK Society for Social Medicine and Past President of the European Public Health Association. He has published over 1,450 scientific papers and 50 books and have an h-Index (Google Scholar) of 173. He was an editor of the European Journal of Public Health for 15 years and is a member of numerous editorial boards, as well as being an editorial consultant to The Lancet. His contributions to European health policy have been recognized by the award of honorary doctorates from Hungary, The Netherlands, Sweden, Greece, and visiting professorships at the Universities of Zagreb and Belgrade, the London School of Economics, and Taipei Medical University. In 2003, he was awarded the Andrija Stampar medal for contributions to European public health and in 2005 was made a Commander of the Order of the British Empire (CBE).

Ricardo Mexia – Chair of the 17th European Public Health Conference

Ricardo Mexia (MD, MPH, EPIET) is a public health physician and epidemiologist. He works primarily in communicable diseases, epidemiological surveillance, public health emergencies and mass gatherings, having been involved in the investigation and control of several outbreaks, and providing training in field epidemiology. He is also a science communicator and collaborates regularly on health issues, in various media (TV, radio, online, written press). Currently part of the Department of Epidemiology of the National Institute of Health Doutor Ricardo Jorge, Lisbon, he is a guest lecturer at the Faculty of Medicine of the University of Lisbon, the Faculty of Medicine and Biomedical Sciences at the University of Algarve, and at the Institute of Social and Political Sciences of the University of Lisbon. He is currently the President of the EUPHA Infectious disease control section, and the President of the General Assembly of the National Association of Public Health Physicians (ANMSP). He is also the President of the Lumiar Parish Council in Lisbon.

PLENARY SPEAKERS

Natasha Azzopardi Muscat – Director of the Division of Country Health Policies and Systems, WHO Regional Office for Europe

Natasha Azzopardi Muscat is the Director of the Division of Country Health Policies and Systems, WHO Regional Office for Europe. Following her qualification as a medical doctor from the University of Malta in 1995, she worked in various areas in the health sector in Malta, including maternal and child health, mental health, and primary care. Her transdisciplinary research bridging health policy, European studies and small states studies led to her PhD entitled "The Europeanisation of health systems: a small state perspective". Since 1999, she has been a resident academic at the University of Malta, teaching in the department of health services management and public health. In 2003, she obtained her membership in the Faculty of Public Health of the United Kingdom. Between 2001 and 2013, she occupied various senior positions in the Ministry of Health in Malta, including that of Chief Medical Officer. Before joining WHO, she served as President of the European Public Health Association (EUPHA) from 2016 to 2020, where she was actively involved in health advocacy at the European level.

Iveta Nagyova – President European Public Health Association (EUPHA)

Iveta Nagyova is the President of the European Public Health Association (EUPHA) and the Head of the Department of Social and Behavioural Medicine, Faculty of Medicine at Pavol Jozef Safarik University (UPJS) in Kosice, Slovakia. She serves as a member of several WHO advisory committees, including the WHO Technical Advisory Group on Behavioural Insights and Sciences for Health, the WHO/Europe's Regional Director's Advisory Council on Innovation for Noncommunicable Diseases, the Behavioural and Cultural Insights working groups, and the European Advisory Committee on Health Research. She graduated in Clinical psychology at UPJS, Slovakia, and obtained her PhD in Medical sciences from the University of Groningen, the Netherlands. Her research interests are in biobehavioural and psychosocial innovations in chronic disease prevention and management, non-pharmacological interventions, health behaviour change, and behavioural insights in public health. At the national level, she serves as an advisor to the WHO Country Office and the Slovak Ministry of Health.

David Novillo Ortiz – Regional Adviser – Data and Digital Health, WHO Regional Office for Europe

David Novillo Ortiz works as unit head at the WHO Regional Office for Europe, coordinating the digital health flagship initiative and the data, metrics and analytics portfolio. Prior to joining WHO/Europe, he served as coordinator of the eHealth programme at the Pan American Health Organization from 2010–2018. Furthermore, David served from 2006 to 2010 as a Technical Officer for the Ministry of Health of Spain, where he was appointed Executive Advisor to the Minister. David obtained his Masters and PhD in Information Sciences from the University Carlos III of Madrid, Spain. He also received a Masters in Public Health from the University of Bordeaux, France, and the Public University of Navarre, Spain. He currently sits on the editorial board of the International Journal of Medical Informatics. In addition, he serves pro bono as an Honorary Senior Research Fellow at University College London, United Kingdom, and as an Adjunct Professor on biomedical informatics at the University of Utah, United States.

Lucy Nugent – President European Association of Hospital Managers (EHAM) and Chief Executive of Tallaght University Hospital, Dublin, Ireland

Lucy Nugent joined Tallaght University Hospital (TUH), Dublin, as Chief Operations Officer in 2014, moved to the role of Deputy CEO in 2016 and was appointed CEO in January 2019. Prior to joining TUH she worked in Ireland's Health Service Executive in their Acute Hospitals Division as Head of Quality Assurance & Risk Management, Clinical & Patient Services Manager in the Children's University Hospital Temple Street. Prior to that she worked in a number of nursing roles as a registered general and children's nurse. In addition to her nursing qualifications Ms Nugent has an MSc in Healthcare Management (TCD), BSc Nursing Studies (DCU), a Diploma in Infection Control (RCSI), a Diploma in Leadership & Quality in Healthcare (RCPI) and is a recent graduate of the IESE Business School Advanced Management Programme. She is a Past President of the Health Management Institute of Ireland and has represented it on several committees of the European Association of Hospital Managers and the International Hospital Federation. She is President of the European Association of Hospital Managers (EHAM) and is the first female to hold this position in its 52 year history.

Mark Petticrew – Professor of Public Health, London School of Hygiene & Tropical Medicine, UK

Mark Petticrew is Professor of Public Health at the London School of Hygiene & Tropical Medicine (LSHTM), United Kingdom. He is Director of the National Institute for Health and Care Research (NIHR) Public Health Policy Research Unit. His main research interests are in evidence-based policymaking, and the evaluation of the effects on health of social and other policies. His work also has a strong focus on the commercial determinants of health – in particular, the influence of unhealthy commodity industries on health (e.g. through the promotion of tobacco, alcohol, and unhealthy foods). Recent research includes analyses of misinformation disseminated by alcohol industry corporate social responsibility (CSR) bodies such as Drinkaware UK and Drinkwise (Australia). He is a collaborator in the SPECTRUM Consortium which investigates the commercial determinants of health and health inequalities. He was a founding member of the Cochrane/Campbell Health Equity Methods Group, which develops methods of incorporating an equity perspective into systematic reviews.

Mary Robinson – Founder Mary Robinson Foundation – Climate Justice, former President of Ireland, former UN High Commissioner for Human Rights

For more than 50 years, Mary Robinson has been campaigning for social change and has been a passionate advocate for human rights, gender equality, women's participation in peacebuilding, human dignity and climate justice. Mary Robinson is a strong advocate for climate justice and intergenerational dialogue. She led the Mary Robinson Foundation – Climate Justice between 2010-2019, a centre for education and advocacy on sustainable and people-centred development in the world's poorest communities. After successfully achieving its strategic objectives, the Foundation came to a planned close in April 2019. Other highlights of her career: President of Ireland, 1990-1997; United Nations High Commissioner for Human Rights, 1997-2002; Chancellor of the University of Dublin, 1998-2019; UN Special Envoy on Climate Change, 2014-2015; UN Special Envoy on El Niño and Climate, 2016; Chair of The Elders, 2018 – ; Adjunct Professor for Climate Justice, Trinity College Dublin, 2019 – .

PLENARY SPEAKERS

Milka Sokolović – Director General European Public Health Alliance (EPHA)

As Director General of EPHA, the European Public Health Alliance, Milka Sokolović advocates for equitable solutions to European public health challenges, insisting on the vital role of civil society in reaching those solutions, instigating alliances and forging partnerships along the way. Milka holds a degree in Biology from the University of Belgrade, Serbia, and a PhD in Medicine from the University of Amsterdam, Netherlands. Through her research and academic roles at the Universities of Belgrade and Amsterdam, and her leadership roles at EUFIC and ENLP, she has developed a remarkable expertise in scientific research, strategic partnerships, and driving change. Milka is skilled at developing and implementing organisational strategies, equipped with robust leadership competences, and armed with ample enthusiasm, all employed into ensuring a better health for all. It is an unceasing quest for a stronger impact and purpose that has taken Milka through a quarter of a century of her career.

Gunhild A. Stordalen – Founder and Executive Chair EAT Foundation

Gunhild A. Stordalen is the founder and executive chair of EAT and a transformative force in linking climate, health, and sustainability to revolutionize the global food system. She has brought together world leaders, scientists, business leaders and NGOs to address one of the most critical questions of our time: How can we create sustainable, resilient, and just food systems that deliver healthy diets for everyone, everywhere? She started EAT in 2013 as a global initiative together with her co-founder Johan Rockstrom. In 2016, they joined forces with Wellcome Trust, and established EAT as a foundation with a science-based multi-stakeholder approach to solving the world's food issues, making a lasting impact on food security and environmental sustainability. Gunhild's commitment to a healthy, sustainable and just future has earned her accolades such as being named WWF Sweden's Environmental Hero of the Year, Young Global Leader of the World Economic Forum and the UN Foundation's Global Leadership Award. Gunhild Stordalen is a medical doctor from the University of Oslo and holds a PhD in pathology/orthopedic surgery. She is involved in numerous boards and councils, including the United Nation's Scaling Up Nutrition Movement Lead Group, the World Economic Forum (WEF) Stewardship Board on Food Systems, and the Stockholm Resilience Center.

George Valiotis – Executive Director European Health Management Association (EHMA)

George Valiotis is the Executive Director of EHMA. He represents the voice of health management to many European and international bodies including the European Parliament, the European Commission, the World Health Organisation, industry bodies, and community groups. George chairs EHMA's webinar series, guides the coordination of the annual conference and has an active role in all EHMA's projects by providing high-level advice on health management matters. Prior to joining EHMA, George was the Chief Executive Officer of a Scottish policy agency focusing on blood-borne viruses and sexual infections. He has managed multiple strategic policy and education collaborations with diverse stakeholder, worked as an education specialist for the International AIDS Society, served on the Board of Diabetes Australia and as an Advisor on its Medical Education and Science Council and as Principal Strategic Advisory to the Commissioner for Children and Young People, Scotland.

PRE-CONFERENCES

For more details please consult the webpage or EPH Conference App

PRE-CONFERENCES
Wednesday 8 November

TIME AND LOCATION	PRE-CONFERENCES WEDNESDAY 9TH NOVEMBER	TIME AND LOCATION	PRE-CONFERENCES WEDNESDAY 9TH NOVEMBER
9:00-12:30 Wicklow Meeting Room 1	FORE – Skills building workshop: Applying strategic foresight methods in public health and policy making <i>Organised by EUPHA-FS</i>	9:00-17:00 Liffey Meeting Room 1	RESP – Assessing COVID-19 response strategies: lessons, legacies and future preparedness <i>Organised by Finnish Institute for Health and Welfare (Finland)</i>
9:00-12:30 Wicklow Hall 1	HLMR – A guideline to the European Health Data Space language based on health literacy principles <i>Organised by EUPHA-HL, EUPHA-PHMR</i> <i>Co-organisers: Technical University Munich (Germany), Sciensano (Belgium), WHO Infodemic Management, WHO</i>	13:30-17:00 Wicklow Hall 2B	SENS – Reuse of sensitive individual data – Methods and tools for a federated approach <i>Organised by EUPHA-PHMR, Population Health Information Research Infrastructure, Institute for Health Sciences (Spain), Robert Koch Institute (Germany), Sciensano (Belgium)</i>
9:00-12:30 Wicklow Hall 2A	ECON – Approaches and methods for cost-of-illness studies: national and international experiences <i>Organised by EUPHA-ECO, Organisation for Economic Co-operation and Development</i>	13:30-17:00 Liffey Meeting Room 3	EHIA – Competences and training needs for better implementation of HIA across Europe <i>Organised by EUPHA-HIA</i>
9:00-12:30 Liffey Hall 1	HPRO – Health literacy, health education and healthy life styles: connections and contradictions towards sustainability and the role of Salutogenesis <i>Organised by EUPHA-HP, University of Education Freiburg (Germany), Health Institute of Coimbra (Portugal)</i>	13:30-17:00 Wicklow Meeting Room 4	IARC – Cancer prevention for a sustainable future: an interactive workshop for public health specialists <i>Organised by Cancer Prevention Europe (CPE), International Agency for Research on Cancer (IARC/WHO)</i>
9:00-12:30 Ecozem	PHYC – Master that elevator: how to effectively pitch your research to policy makers. A capacity building session for young professionals <i>Organised by EUPHAnxt, EuroNet MRPH</i>	13:30-18:00 Liffey Hall 1	PAHN – Developments in evaluating implementation of public policy for the promotion of physical activity and healthy nutrition <i>Organised by University of Limerick (Ireland)</i>
9:00-17:00 Liffey Hall 2	MIGR – Inclusion of refugee and migrant groups to address key health challenges for a sustainable future <i>Organised by EUPHA-MIG, Lancet Migration, WHO Collaborating Centre for Migrant's Involvement in Health Research, University of Limerick (Ireland)</i>	13:30-17:00 Ecozem	YRF – Young Researchers' Forum <i>Organised by ASPHER and EUPHA</i>
9:00-17:00 Wicklow Meeting Room 3	SSWH – Workplace sexual harassment: theory, measurement, consequences and prevention <i>Organised by EUPHA-SSWH</i>	13:30-17:00 Wicklow Meeting Room 5	PRIM – Sustainable primary healthcare: lessons learned, quick wins and challenges <i>Organised by NHG - Dutch Council for General Practitioners (Netherlands), European Forum for Primary Care</i>
9:00-17:00 Wicklow Meeting Room 2	QRMT – A hands-on introduction to qualitative research methods in public health <i>Organised by EUPHA-EPI, EUPHAnxt</i>	13:30-17:00 Wicklow Hall 1	DATA – Better public health: a data centred approach to interoperability, with international information standards <i>Organised by GGD-GHOR (Netherlands)</i>
		13:30-17:00	WALK – Art, architecture, atmosphere and (mental) health – A multi-disciplinary walking experience in Dublin <i>Organised by EUPHA-PMH, EUPHA-ENV, EUPHA-URB</i>
		13:30-17:00 Wicklow Meeting Room 1	COMM – Assessing health needs: a public health diagnosis of two Dublin communities <i>Royal College of Surgeons in Ireland (RCSI), Dublin City University (DCU), Sláintecare Healthy Communities programme</i>

INVITATIONAL WORKSHOPS

We are excited to announce a series of invitational workshops at the Dublin 2023 Conference. Invitational workshops are supported and organized by external partners. They are part of the parallel scientific programme and as such reviewed by the International Scientific Committee. They are free to attend by registered delegates of the main EPH Conference.

WORKSHOP: KEEPING HEALTH AT THE FOREFRONT: A DEBATE ON HEALTH PRIORITIES OF THE EUROPEAN UNION (1.I.)

Organised by European Commission/HaDEA

Thursday 9 November, 9:00-10:00, room Wicklow Hall 2B

SKILLS BUILDING SEMINAR: NUTRITION: A CHALLENGE FOR THE INTERVENTION RESEARCH AND HEALTH PROMOTION (2.K.)

Organised by French National Cancer Institute

Thursday 9 November, 10:30-11:30, room Wicklow Hall 1

FIT FOR PURPOSE SURVEILLANCE – STRATEGIES TO IMPLEMENT EFFECTIVE SURVEILLANCE SYSTEMS IN EU/EEA COUNTRIES UNDER THE NEW SERIOUS CROSS BORDER HEALTH THREATS REGULATION (2022/2371)(8.B.)

Organised by European Commission

Friday 10 November, 16:40-17:40, room Liffey Hall 2

LUNCH SYMPOSIUMS

We are excited to announce an interesting programme of lunch symposiums. They are free to attend by registered delegates of the main EPH Conference.

THURSDAY 9 NOVEMBER,
12:50 – 13:50 (DUBLIN TIME)

**Our Food, Our Health, Our Earth:
EU funding opportunities**

Organised by European Health and Digital Executive Agency (HaDEA)
Liffey A

**The making of a leader: women leaders in Public Health.
A session for young public health professionals**

Organised by WHO Regional Office for Europe,
European Public Health Alliance, EUPHANxt
Liffey Hall 1

**Enabling health and care systems transformation through
research and innovation**

Organised by Transforming Health and Care Systems (THCS)
Partnership
Liffey Hall 2

**Epidemic Intelligence – global lessons and how best to prepare
for the next pandemic**

Organised by Conduent
Liffey B

FRIDAY 10 NOVEMBER,
12:50 – 13:50 (DUBLIN TIME)

**Health inequalities and multimorbidity as challenges to the
sustainability of public health systems – examples from Finland
and Scotland**

Organised by IMPRO - multidisciplinary research project by
University of Eastern Finland (UEF), Finnish Institute for Health
and Welfare (THL), Aalto University and University of Oulu, Finland
Liffey Hall 1

Life Course Immunisation: Protecting Public Health

Organised by Pfizer Healthcare Ireland
Liffey Hall 2

Late breaker: Climate emergency

Organised by EPH Conference
Liffey B

JOIN THE NETWORKS BY EUPHA SECTIONS

EUPHA Sections are theme-specific networks that organise workshops and projects together. EUPHANxt is a network within EUPHA for students and young professionals, including early career researchers and policymakers, in the field of public health. All EUPHA Sections and EUPHANxt are organising join the networks sessions during the conference programme. These meetings are open to all delegates, registration is not required. Please feel free to join.

Thursday 9th November, 12:50–13:50

Global health initiative	JTN1	<i>Ecocem room</i>
Child and adolescent public health	JTN2	<i>Wicklow Hall 2A</i>
Health workforce research	JTN3	<i>Liffey Meeting Room 2</i>
Law and public health	JTN4	<i>Wicklow Meeting Room 1</i>
Migrant and ethnic Minority health	JTN5	<i>Wicklow Hall 2B</i>
Public health economics	JTN6	<i>Wicklow Hall 1</i>

Thursday 9th November, 14:00–15:00

Public health genomics	JTN10	<i>Wicklow Hall 1</i>
Foresight - Join the network	JTN7	<i>Liffey Meeting Room 2</i>
Health impact assessment	JTN8	<i>Wicklow Hall 2B</i>
Health promotion	JTN9	<i>Wicklow Hall 2A</i>

Friday 10th November, 10:30–11:30

Chronic diseases	JTN11	<i>Wicklow Hall 2A</i>
Health services research	JTN12	<i>Wicklow Hall 2B</i>
Injury prevention and safety promotion	JTN13	<i>Wicklow Hall 1</i>
Healthy ageing proposed section	JTN14	<i>Wicklow Meeting Room 1</i>

Friday 10th November, 12:50–13:50

Ethics in public health	JTN15	<i>Wicklow Hall 1</i>
Public health epidemiology	JTN17	<i>Wicklow Hall 2A</i>
Sexual gender and minority health	JTN18	<i>Ecocem room</i>
Social security, work and health	JTN19	<i>Liffey Meeting Room 2</i>
EUPHANxt	JTN20	<i>Wicklow Hall 2B</i>

Friday 10th November, 14:00–15:00

Health technology assessment	JTN16	<i>Wicklow Hall 1</i>
Health literacy initiative	JTN21	<i>Liffey Meeting Room 2</i>
Public health monitoring and reporting	JTN22	<i>Wicklow Hall 2A</i>
Urban public health	JTN23	<i>Wicklow Hall 2B</i>
Working group on Gender Inequality and Women empowerment	JTN24	<i>Ecocem room</i>

Saturday 11th November, 10:30–11:30

Digital health	JTN25	<i>Ecocem room</i>
Public mental health	JTN30	<i>Wicklow Hall 2B</i>
Oral health	JTN31	<i>Wicklow Meeting Room 4</i>

Saturday 11th November, 12:50–13:50

Environment and health	JTN26	<i>Wicklow Hall 2A</i>
Food and nutrition	JTN27	<i>Wicklow Hall 1</i>
Infectious diseases control	JTN28	<i>Liffey Hall 2</i>
Public health policy and politics	JTN29	<i>Wicklow Hall 2B</i>

FERENC BOJAN YOUNG INVESTIGATORS AWARD

Since 1997, EUPHA has installed a Ferenc Bojan lecture/award in memory of the EUPHA president who tragically died from a car accident in Hungary in February 1997.

Ferenc Bojan qualified in medicine from Debrecen, in eastern part of Hungary in 1970 and spent his early professional career in the academic department of hygiene in Debrecen. In 1989 he moved to the Department of Social Medicine, as its head and rapidly recognized the need to address the problems of chronic underfunding and the failure to adopt modern approaches to public health. He strove to ensure that Hungary was integrated into the wider European public health community, taking the Hungarian Society for Public Health into EUPHA and subsequently being elected as EUPHA president. Ferenc Bojan used his period in office to support the expansion of EUPHA to neighbouring countries. Throughout the 1990s, he was an inspiration to and gave much support to those in other parts of this region.

In order to continue the legacy of Ferenc Bojan, the EUPHA Executive Council decided in 1997 to have one session called the 'Ferenc Bojan Memorial Lecture'. After few year it has been transformed in a conference session entitled 'Ferenc Bojan Young Investigators Award'.

Here the five highest scoring abstracts from young professionals (under 35 years) are invited to present their abstract to a small committee. The committee combines abstract with presentation and the winner of the Ferenc Bojan award is announced in the closing session.

2023 FERENC BOJAN YOUNG INVESTIGATORS AWARD

Ferenc Bojan: young investigator award session

Fri 10th, 11:40-12:40

Ecocem Room

Chairperson(s): Iveta Nagyova (EUPHA), Julian Mamo (EUPHA-CHR)

Predictors of lower response to COVID19 vaccine in people living with HIV. A 6-month follow-up study – Marco Fonzo (Italy)

Self-perceived barriers to healthcare access for patients with post COVID-19 condition – Iris Brus (Netherlands)

Socioeconomic inequalities in smoking and drinking in adolescence: social network dynamics – Marta Rado (Sweden)

Changes in health of older adults during the COVID-19 pandemic: a longitudinal cohort study – Djoeke Besselink (Netherlands)

"I feel healthy, I don't need to go": Analysis of the cancer screening barrier – Anna Altová (Czechia)

POSTER DISPLAYS ARE SHOWN ON TV SCREENS WITHOUT PRESENTATION AND MODERATION
ALL POSTERS ARE DISPLAYED AT ALL TIMES DURING THE CONFERENCE

DA - One Health: health threats to people, animals and ecosystems

- DA.2 - One Health strategies for addressing antimicrobial resistance: an exclusive emphasis on Bulgaria. - Desislava Vankova (Bulgaria)
DA.3 - SARS-CoV-2 in freshwaters used for irrigation in the agro-urban environment of Milan (Northern Italy). - Michela Consonni (Italy)
DA.4 - A cluster of Histamine Fish Poisoning associated with the ingestion of tuna. - Therese McGlacken (Ireland)
DA.5 - Point prevalence survey on healthcare-associated infections in Apulian region, Italy, 2022-2023. - Francesca Fortunato (Italy)
DA.6 - Potential zoonotic agents in sea turtles: Chlamydia species and Listeria monocytogenes. - Filippo Barsi (Italy)
DA.8 - Improving vector-borne disease control in Albufeira. - Regina Sá (Portugal)
DA.9 - The next-generation tools for risk assessment and precision food safety in the One Health continuum. - Guerrino Macori (Ireland)
DA.10 - Cystic echinococcosis in humans and ruminants in Portugal: a one health approach. - Ana Margarida Alho (Portugal)
DA.11 - EPASCOPE: A new indicator for prescriptive appropriateness of antimicrobials: our experience. - Alessandro D'Avino (Italy)

DB - Tackling infectious diseases, preparing for the next pandemic

- DB.1 - Outbreak economic analysis of six imported hemorrhagic fevers following detection at 24 hours. - Tristán Learoyd (Ireland)
DB.2 - The approach to developing Ireland's first national health protection strategy and lessons learnt. - Ciara Kelly (Ireland)
DB.3 - Healthcare utilization during the COVID-19 pandemic: changes, potential causes. A Swiss cohort study. - Erika Harju (Switzerland)
DB.5 - Barriers and enablers to vaccine uptake in the Ultra-Orthodox Jewish population: a systematic review. - Avraham Jacobson (Israel)
DB.8 - Epidemiology of Severe Acute Respiratory Infection (SARI) 2022-2023 season. - Róisín Duffy (Ireland)
DB.9 - Comparison, by Country, of the Uptake of COVID-19 Vaccination by Health Care Workers in the EU/EEA. - Therese McGlacken (Ireland)
DB.10 - Post-covid policy responses to health workforce capacities: comparing health system resilience. - Viola Burau (Denmark)
DB.11 - Temporality shaping lessons learned from COVID-19 - Follow-up study of Finnish pandemic governance. - Liina-Kaisa Tynkkynen (Finland)
DB.13 - Barriers and levers to vaccination of the elderly: results of a qualitative study. - Alexandra Addario (France)
DB.14 - Viricidal activity of antimicrobial blue light (405 nm) against the SARS-CoV-2 and influenza virus. - Lorenzo Dragoni (Italy)
DB.15 - Management and control of an outbreak of NDM-producing Klebsiella pneumoniae in a teaching hospital. - Ilaria Tocco Tussardi (Italy)
DB.16 - Forecasting of COVID-19 spread in Poland as part of health needs mapping. - Klaudiusz Witczak (Poland)
DB.17 - The COVID-19 pandemic and the regional orthopedic anesthesia guidelines. - Alline Macarico (Portugal)
DB.18 - Indicators used in policy monitoring documents and decision tools assessing the impact of COVID-19. - Cesar Garriga (Spain)
DB.19 - Post-Covid syndrome in the workplace. - Nicola Magnavita (Italy)
DB.21 - Attitudes toward vaccination in the Croatian adult population. - Ivan Miskulin (Croatia)
DB.22 - Level of sanitary preparedness of European facilities during the COVID-19 pandemic. - Magdalena Barbara Kaziuk (Poland)
DB.23 - Post COVID-19 Condition in adults: results from a bibliometric analysis. - Gianfranco Damiani (Italy)
DB.24 - Building an infodemic management network in Serbia: Insights from public health practitioners. - Aleksandar Stevanović (Serbia)
DB.26 - Implementation of COVID-19 measures for Dutch nursing home staff and their insights. - Ylse van Dijk (Netherlands)
DB.27 - Health workers' compliance with COVID-19 Control Measures at De Martino Hospital, Mogadishu, Somalia. - Belgin Unal (Turkey)
DB.28 - A systematic review of real-world contact tracing strategies at the onset of the COVID-19 pandemic. - Annalisa Rosso (Italy)
DB.29 - Environmental, climatic, anthropogenic features of Filoviruses Disease Outbreak: a systematic review. - Angelica Valz Gris (Italy)
DB.30 - Decision-making, training and support: Lessons from public health response to COVID-19 in Ireland. - Cian Kennedy (Ireland)
DB.31 - COVID-19 vaccine booster dose effectiveness among health workers: systematic review & meta-analysis. - Luca Bartolucci (Italy)
DB.32 - COVID-19 vaccine hesitancy among healthcare workers and its associated factors: A systematic review. - Lina Fakh (Lebanon)
DB.34 - Literacy and Attitudes Towards COVID-19 Vaccine in Cancer Patients. - Beyza Ataoglu (Turkey)

DC - Food security, sustainable production and improving nutrition

- DC.1 - Older family caregivers' inadequate diet and social and health inequalities. - Roosa-Maria Savela (Finland)
DC.5 - Exposure to multiple sources of accessible, cheap, energy dense fast foods in a deprived community. - Patrick Saunders (UK)
DC.7 - Aligning Environmental Sustainability, Health and Affordability in Diet Quality: A Systematic Review. - Clarissa Leydon (Ireland)
DC.8 - Actions for the protection and prevention of sustainable healthy complementary feeding in nurseries. - Giulio Barocco (Italy)
DC.9 - Association of eating behavior with body mass index and waist circumference in university students. - Tatjana Gazibara (Serbia)

- DC.10 – Rapid review of evidence to inform the Northern Ireland Obesity Prevention Strategy 2023–33. – Ciara Reynolds (Ireland) DC.13 – LIFE Climate Smart Chefs; qualitative insights for a sustainable food service. – Laura Kirwan (Ireland)
- DC.14 – Encouraging the planetary health diet via food taxes and subsidies: a model concept. – Agota Meszaros (Hungary)
- DC.15 – Saxitoxin hazard! Detection of toxic algae in molluscs breeding areas in North–Western Adriatic Sea. – Laura Ragni (Italy)
- DC.16 – A rapid synthesis of evidence on whole systems approaches to obesity prevention to inform policy. – Ciara Reynolds (Ireland)
- DC.17 – Association between metals and metalloids with cognitive status in Mild Cognitive Impairment subjects. – Teresa Urbano (Italy)
- DC.18 – Plant–based foods on the Portuguese market: a salutary alternative to animal–origin counterparts? – Roberto Brazão (Portugal)
- DC.19 – Healthy dietary patterns and cognitive status in Mild Cognitive Impairment subjects. – Teresa Urbano (Italy)
- DC.20 – Pre– and Post–pandemic Fast Food Density in Wales. – Cat Price (UK)
- DC.21 – Economic impacts and mitigation strategies of African Swine Fever in China: a systematic review. – Zixuan Wu (China)
- DC.22 – Risk assessment of exposure to multiple mycotoxins in the Icelandic population. – José Durão (Portugal)
- DC.25 – Geospatial mapping of food advertisements in three low–income communities in Cape Town, South Africa. – Annalie Wentzel (South Africa)
- DC.26 – A cost–consequence analysis of a menu intervention in early childhood education and care. – Olli Kurkela (Finland)
- DC.28 – Hungry and warm; cold and fed? The intersection of food and fuel poverty. – Sarah Champagne (UK)
- DC.29 – Evaluation of metabolic parameters among health workers in terms of adherence to Mediterranean diet. – Özge Tonbuloğlu Altiner (Turkey)
- DC.30 – Socioeconomic and health predictors for food insecurity during the COVID–19 pandemic in Czechia. – Maika Ohno (Czechia)
- DC.31 – Nutrition knowledge and practices in children under two years of age in Huila, Angola. – Maryoli Veloso Fraigola (Spain)
- DC.32 – The nexus of food and nutrition security in youth: linking a Canadian survey and administrative data. – Nikki Webb (Canada)
- DC.33 – Impact of universal free school meals on health and equity: international policy scoping review. – Lauren Couzens (UK)
- DC.34 – Integrated Knowledge Translation in the Food and Nutrition Security for Manitoba Youth study. – Joyce Slater (Canada)
- DC.35 – Food security and Mediterranean diet in five countries: the DELICIOUS project. – Giuseppe Grosso (EUPHA–FN)
- DC.36 – Implementation of the Baby–Friendly Hospital & Community Initiatives in Europe: a scoping review. – Anne Matthews (Ireland)
- DC.37 – Knowledge, attitudes, and barriers of dietitians toward screening patients for food insecurity. – Vered Kaufman Shriqui (Israel)
- DC.38 – Piloting a branded food database for reformulation monitoring in Ireland. – Sinead O'Mahony (Ireland)
- DC.39 – How are Norwegian municipalities working to promote a healthy and sustainable diet? – Liv Elin Torheim (Norway)
- DC.40 – Mitigating and preventing food insecurity: a scoping review of the current EU policies. – Maria Lucia Specchia (Italy)
- DC.41 – Food for thought: a look at the food industry's corporate political activity in Portugal. – Ana Carolina Baptista (Portugal)
- DC.42 – Social gastronomy initiatives in Copenhagen, Denmark for food security, sustainability and health. – Pernille Malberg Dyg (Denmark)
- DC.43 – Green Climate Fund adaptation's interventions on food security: metrics and health outcomes. – Davide Serli (Italy)
- DC.44 – Inequalities in availability and compliance of school food programs in Canadian elementary schools. – Katerina Maximova (Canada)
- DC.45 – Food system definitions and narratives in Irish agri–food strategies. – Isobel Stanley (Ireland)
- DC.47 – Nutritional status assessment using anthropometry and evaluation of school canteen menus in Tanzania. – Damiano Callegaro (Italy)
- DC.48 – Correlates of adherence to a posteriori derived dietary patterns of an Italian sample of adults. – Nicolò Scarsi (Italy)
- DC.49 – Development of a food frequency questionnaire to monitor protein intake in Flanders, Belgium. – Isabelle Moyersoen (Belgium)

DD – Global health and Europe's role in global health

- DD.2 – Inadequate WASH access and risk for non–partner sexual violence in low– and middle–income countries. – Hyejun Chi (South Korea)
- DD.5 – Canadian Adolescents Perceptions of Survey Questions about Climate Emotions and Coping Strategies. – Alina Cosma (Ireland)
- DD.6 – Women's autonomy and completion of continuum of care in maternal healthcare. – Sohee Jung (South Korea)
- DD.7 – The COVID–19 Movement Restrictions and Impact on Shelter Accessibility: Central African Republic. – Kim Young–Jin (South Korea)
- DD.8 – Men's Views on Gender Equality: Attitudes and Behaviors at Male–Friendly Clinics in Malawi. – Isotta Triulzi (Italy)
- DD.9 – Funding agencies' complicity in advancing or impeding equity in and through global health research. – Jenna Dixon (Canada)
- DD.10 – Strengths and weaknesses of the South–South Learning Exchange: the experts' perspectives. – Isotta Triulzi (Italy)
- DD.11 – The Top 100 Most Cited Papers in 2022 on Global Health indexed in Web of Science. – Petek Eylül Taneri (Ireland)
- DD.12 – Collaboration between the National Institute of Health Somalia and the Public Health Agency of Sweden. – Malin Ahrne (Sweden)

POSTER DISPLAYS ARE SHOWN ON TV SCREENS WITHOUT PRESENTATION AND MODERATION
ALL POSTERS ARE DISPLAYED AT ALL TIMES DURING THE CONFERENCE

DE - Achieving universal health coverage (UHC): reducing health inequity

- DE.3 - Organising for health equality: assessing contexts for implementing integrated health access. - Viola Burau (Denmark)
DE.4 - Project Hep-ØN: A comprehensive approach to reduce chronic viral hepatitis in Portugal. - Patricia Pita Ferreira (Portugal)
DE.5 - Restrictions on access to medical care for the uninsured in Bulgaria. - Sergey Kostadinov (Bulgaria)
DE.6 - Worry about unmet medical care as a sensitive proxy indicator for medically vulnerable area. - JungHee Cho (South Korea)
DE.7 - Exploring avoidable, preventable, treatable mortality trends and effect factors by income level. - Hee Soo Yang (South Korea)
DE.9 - Training for the qualification of care management for high-risk pregnant women in Amazon, Brazil. - Guilherme Shimocomaqui (Brazil)
DE.10 - The impact of socio-economic status on infant deaths: a case-control study from Istanbul. - Nadiye Pinar Ay (Turkey)
DE.11 - Status and factors in healthcare access on non-communicable diseases in Kyoto City, Japan. - Yukiko Tateyama (Japan)
DE.12 - The Transfer Patterns of Vulnerable Populations with Acute Cardio-Cerebrovascular Diseases. - Eun Hye Choi (South Korea)
DE.13 - Addressing health equity within the implementation of health system reforms: A scoping review. - Tristan Bouckley (Australia)
DE.14 - Health equity implementation expectations and challenges in a multi-level system reform initiative. - Tristan Bouckley (Australia)
DE.15 - Overall effectiveness of PRALIMAP-INES in reducing adolescents' nutritional and weight inequalities. - Arnaud Dosda (France)
DE.16 - A mixed methods study about health problems and drug use in Belgian prisons during 2021-2022. - Els Plettinckx (Belgium)
DE.17 - An exploration of access to healthcare for women experiencing homelessness in Northern Ireland. - Sarah McNeill (UK)
DE.18 - Development of a country specific flow chart to the effective vaccination of migrants in Italy. - Giulia Marchetti (Italy)
DE.19 - Families' social security and benefit needs when a child is diagnosed with cancer. - Ella Näsi (Finland)
DE.20 - Review the Primary Health care for Travellers Projects (PHCTPs) in the Eastern Region. - Brigid Quirke (Ireland)

DF - Chronic diseases

- DF.1 - Promotion of Health Literacy in a Colorectal Cancer Screening. - Andreia Silva da Costa (Portugal)
DF.4 - Are chronic diseases the cause of poor sleep quality among adults in Malta? - Elizabeth Grech (Malta)
DF.5 - Time to act! A review exploring the impact of climate change on respiratory diseases. - Sarah Cuschieri (Malta)
DF.6 - The chronic diseases and health-related quality of life among nursing home residents in Armenia. - Diana Muradyan (Armenia)
DF.7 - Piloting patient-reported outcome measures for evaluation of the Irish Chronic Disease Programme. - Ellen Juliet Cosgrave (Ireland)
DF.8 - Prediabetes and lifestyle habits in Reunion Island: Need for targeted interventions. - Rene Bun (France)
DF.9 - Characterising diabetes in Kazakhstan: a cluster analysis. - Binura Taurbekova (Kazakhstan)
DF.11 - The use of social media in the self-management of chronic diseases: views of patients and doctors. - Victoria Dudina (Russia)
DF.12 - The Global Impact of Edentulism: A Systematic Review. - Emma Hunter (UK)
DF.14 - Population based diabetic foot screening - does it meet the principles of screening? - Jennifer Pallin (Ireland)
DF.15 - Stakeholders' perceptions of factors influencing uptake, delivery, and commissioning of health checks. - Christina Kien (Austria)
DF.16 - General practitioners' opinions about alcohol use disorder and its screening in primary care. - András Terebessy (Hungary)
DF.17 - Lessons learned from COVID-19: improving breast cancer services from the patient perspective. - Charlotte Myers (EUPHANxt)
DF.18 - Aspirin is inversely related to gastric cancer with a dose-risk effect: results from the StoP Project. - Roberta Pastorino (EUPHA-PHG)
DF.20 - Association of HDL subfraction profile with the progression of insulin resistance. - Péter Pikó (EUPHA-PHG)
DF.21 - Experiences with a patient-oriented navigation program in Germany from the navigators' perspectives. - Hella Fuegemann (Germany)
DF.22 - Exercise as medicine: Physicians' perceptions of physical activity and exercise for chronic diseases. - Niki Syrou (Greece)
DF.23 - Exploring attitudes of people with chronic conditions towards telerehabilitation: A qualitative study. - Caoimhe Barry Walsh (Ireland)
DF.24 - Incidence and persistence of post-COVID-19 condition in adults- a matched cohort study in Germany. - Christa Scheidt-Nave (Germany)
DF.25 - The processes and practices of intermediaries in connecting individuals to local physical activity. - Megan O'Grady (Ireland)
DF.26 - Being a woman or being a youth: what matters for young adults with chronic diseases? - Marie Dauvrin (Belgium)
DF.28 - Transitions in and out of work across the life course of patient with a NCD diagnosis. - Julian Perelman (Portugal)
DF.29 - Complications associated with Type 2 Diabetes and concerns about treatment: a quantitative approach. - Ana Rita Pedro (Portugal)
DF.30 - Prevalence & incidence of diabetes related foot disease & amputation in Ireland; a systematic review. - Jennifer Pallin (Ireland)
DF.31 - Development of a low-cost, at-home device for early detection of chronic kidney disease. - Karen Tatiana Valencia Rivero (Colombia)
DF.32 - Socio-economic burden of cystic fibrosis in Europe: a systematic review of cost of illness evidence. - Floriana D'Ambrosio (Italy)

POSTER DISPLAYS ARE SHOWN ON TV SCREENS WITHOUT PRESENTATION AND MODERATION
ALL POSTERS ARE DISPLAYED AT ALL TIMES DURING THE CONFERENCE

DF.33 – Exploring the Burden of Colorectal Cancer in Georgia: A Population-based Cancer Registry Analysis. – Miranda Nonikashvili (Georgia)
DF.35 – Eye & Diabetes in Morocco : Where are we from the global screening guidelines?- Yassine El Harrak (Morocco)
DF.36 – Increasing incidence of non-Hodgkin lymphoma in England, 1985–2019. – Anjum Memon (UK)
DF.37 – Suicidal ideation in coronary heart disease patients: the role of ethnicity and lifestyle factors. – Vladimíra Timková (Slovakia)
DF.39 – DALY attributable to air pollution associated with tracheal, bronchus, and lung cancer in Europe. – Katarina Vojvodic (Serbia)
DF.40 – Cancer risk factors and access to cancer screening for people experiencing homelessness. – Maren Jeleff (Austria)
DF.41 – Differences in breast cancer incidence between women with and without disabilities in South Korea. Hee-Yeon Kang (South Korea)
DF.42 – Value-based care models for chronic hepatitis B and C among vulnerable populations: a scoping review. – Andrea Adduci (Italy)
DF.43 – Self-reported chronic pain: Prevalence and characteristics in the Capital Region of Denmark. – Marie Holm Eliassen (Denmark)
DF.45 – Effectiveness of dietary intervention among people with diabetes mellitus: A quasi-experimental study. – Lakshmi Pvm (India)
DF.47 – Secondary risk reduction service acceptability amongst Irish breast cancer survivors and clinicians. – Clara Steele (Ireland)
DF.49 – Impact of covid-19 on obesity and abdominal obesity: focusing on differences by age group. – Gahee Lee (South Korea)
DF.50 – Exploring spatial patterns of cardiovascular disease among women in India. – Trupti Patil (India)

DG – Climate emergency / Environment and health / Urban health

DG.1 – Increased temperatures and child health outcomes: a systematic review. – Clare Faurie (Australia)
DG.4 – The role of time in healthy living environment networks: current research and future directions. – Lisa Janssen (Netherlands)
DG.6 – (Re)-discovering rivers benefits in the City : a One Health approach. – Marion Porcherie (France)
DG.7 – Effect of urban green space on parental sleep quality in the two years after childbirth. – Peng-An Chen (Taiwan)
DG.9 – Marine pollution and human health in Small Island Developing States (SIDS): A systematic review. – Nicolò Scarsi (Italy)
DG.10 – Fixing food together: transitioning Ireland to a healthy sustainable food system – CHA position paper. – Orna O'Brien (Ireland)
DG.11 – The relationship between neighboring social capital and health outcomes. – Jamie Kost (USA)
DG.12 – Heat exposure and heat stress in outdoor workers: a review of measures in published studies. – Christina Estephan (Lebanon)
DG.17 – Health Literacy of a Migrant community in Portugal on environmental health risks. – Rosa Machado (Portugal)
DG.18 – Understanding the complex systems of climate change and NCDs: A Causal Loop Diagram. – Ruth Hunter (UK)
DG.19 – Sustaining health and well-being in the built environment. – Seda Kacel (Belgium)
DG.20 – Tackling climate crisis through systems thinking: PERSIST, a pilot project in an Italian high school. – Doris Zjalic (Italy)
DG.21 – Active recreational and silvicultural co-use of forested areas: an innovative forest management study. – Arnhild Myhr (Norway)
DG.22 – Decarbonizing healthcare sector: from a review to a framework of practical solutions. – Chiara De Marchi (Italy)
DG.23 – Do the pollution related to ozone pose a real health threat to the population in Upper Silesia? – Joanna Kobza (Poland)
DG.24 – A multispecies coexistence based on rewilding and degrowth for the sake of global health. – Cristian Moyano-Fernández (Spain)
DG.25 – Asthma prevalence and environmental exposure in children and adolescent in Slovenia – a pilot study. – Tanja Rejc (Slovenia)
DG.27 – Exposure to surrounding greenness and well-being in Portugal, a cross sectional study. – Daniel Resendes (Portugal)
DG.28 – After the 2021 Air Quality Guidelines (AQGs): a scoping review study protocol on air pollution. – Marco Monti (Italy)
DG.29 – Anti-racism praxis in an emerging community-academic approach to environmental and climate justice. – Alana LeBron (USA)
DG.31 – The correlation of climate change and mortality: climate change as a factor for health inequalities. – Lukas Murau (Norway)
DG.33 – Impact of the 50 biggest pharma companies: a review of Environmental report aspiring to NetZero. – Mattia Di Russo (Italy)
DG.34 – PHONIC: Public Health OperatiONs for climate aCtion-Development of a framework to identify priorities. – Annkathrin von der Haar (Germany)
DG.35 – Co-benefiting people and planet: stewarding health resources to reduce waste and improve health. – Rosemary Aldrich (Australia)
DG.36 – CHH: Health community accessing environmental information from the Copernicus Programme. – Julie Letertre (Germany)
DG.37 – The impact of induced earthquakes on mental health: evidence from the Dutch Lifelines Cohort Study. – Ailun Shui (Netherlands)
DG.39 – Low-cost IoT sensors reveal adverse health outcomes associated with air pollution exposure. – Gaya Bin Noon (Canada)
DG.40 – Mapping activities on climate and health to the essential public health operations (EPHO). – Paul McGurnaghan (UK)
DG.41 – Patients' satisfaction with the current access to and the quality of WASH services in rural hospitals. – Alua Omarova (Kazakhstan)
DG.42 – Using mixed methods to better assess the effects of citizen sensing on individual behaviors. – Guilhem Dardier (France)
DG.43 – 5 year public health impacts of an urban greenway, Belfast, Northern Ireland: Causal Loop Diagram. – Ruth Hunter (UK)
DG.44 – At-home thermal discomfort is associated with non-communicable chronic diseases. – Carolina Capitão (Portugal)

POSTER DISPLAYS ARE SHOWN ON TV SCREENS WITHOUT PRESENTATION AND MODERATION
ALL POSTERS ARE DISPLAYED AT ALL TIMES DURING THE CONFERENCE

DG.45 - Healthy ageing in a gentrified city: perspectives of older adults from Porto. - Cláudia Santos (Portugal)
DG.46 - PM2.5 Air Quality Monitoring during COVID-19 Restrictions in Portugal: Key Findings. - Carla Martins (Portugal)
DG.47 - Exposure to green and blue spaces and depression in older adults: Findings from the EPIPorto cohort. - Cláudia Santos (Portugal)
DG.48 - Food policy impacts on greenhouse gas emissions from food system activities in Ireland 1990-2018. - Isobel Stanley (Ireland)
DG.49 - 'I just can't stand being there anymore': Places of contention for older Americans during COVID-19. - Viveka Guzman (Ireland)
DG.50 - Air pollution, self-reported health, and ethnicity in the UK: A spatial-temporal analysis - Mary Abed Al Ahad (UK)

DH - Digital health and communication

DH.1 - Risk communication during COVID-19 pandemic in Georgia. - Natia Skhvitardze (Georgia)
DH.3 - Smartphone Addiction among Syrian Medical Students. - Agyad Bakkour (Syria)
DH.4 - Refreshed academic viewpoint on patient data ownership in digital health context. - Martin Mirchev (Bulgaria)
DH.5 - What health risk factors are brought by the most popular Lithuanian influencers in social networks? - Robertas Basijokas (Lithuania)
DH.6 - Opponents of vaccines in Israel and their justifications to operating and spreading their position. - Liron Inchi (Israel)
DH.7 - Patients' attitudes towards remote primary healthcare services in Lithuania. - Skirmante Sauliune (Lithuania)
DH.8 - Bringing an EU Joint Action to TikTok: the case of eCAN. - Elisa Piñón Hermida (Spain)
DH.9 - Improvement in medical consultation by using an AI-powered symptom assessment application (SAA). - Nisha Kini (Germany)
DH.10 - Examining impact of Twitter sentiment & source on COVID-19 info sharing by public. - Sana Parveen (Ireland)
DH.11 - Patients' suitability for digital health - what should be evaluated by health care professionals? - Anu-Marja Kaihlanen (Finland)
DH.12 - UbiSeCEF: Ubilab's Secure Cloud Environment Framework for Public Health Research. - Pedro Miranda (Canada)
DH.13 - Design of infrastructure for visualising and benchmarking patient data from general practice (CARA). - Akke Vellinga (Ireland)
DH.14 - FeMFit: Feasibility of tracking the menstrual cycle using digital questionnaires and wearable devices. - Anna-Lena Lang (Germany)
DH.15 - A National Portal to enhance transparency and support the Italian reform towards proximity care. - Fabrizio Carinci (Italy)
DH.16 - The increasing use of digital therapeutics of insomnia and other sleep disorders: a systematic review. - Giacomo Madeo (Italy)
DH.17 - A Guide to AI in epidemiology: ChatGPT and the STROBE checklist for observational studies. - Giulio Pedrazzoli (Italy)
DH.18 - Territorial Coordination Centres and Telenursing: innovation and digitalisation of home care in Italy. - Alice Borghini (Italy)
DH.19 - Cross-country knowledge-sharing tools: The example of the PHIRI Rapid Exchange Forum. - Claudia Hahl (Austria)
DH.20 - Co-design and implementation of digital health for older people: Implications for public health. - Andrew Darley (Ireland)
DH.21 - Role of digital media in vaccination promotion. Second report on VaccinarSinToscana.org experience. - Claudia Cosma (Italy)
DH.22 - Sexual health communication in public service media: The case of Finland and Sweden. - Ronja Abrams (Finland)
DH.23 - Identifying infodemic sources of exposure, its effects, response capacities and needs in Serbia. - Aleksandar Stevanović (Serbia)
DH.25 - Improving health outcomes of patients with myocardial infarction with value based methodology. - Vanja Vasiljev (Croatia)
DH.26 - Barriers of successful implementation of telemedicine in developing countries: the Colombian case. - Karen Tatiana Valencia Rivero (Colombia)
DH.27 - Artificial Intelligence Chatbots for medical training in Public Health: a tool to explore. - Francesco Baglivo (Italy)
DH.28 - Long-Term Efficacy of primary care combining a mobile healthcare application with human coaching. - Hyorim Ju (South Korea)
DH.30 - eHealth profile of patients with diabetes. - Arnaud Chiolero (Switzerland)
DH.31 - Developing Population Health Management in Ireland-Challenges and Opportunities. - Catherine Hayes (Ireland)
DH.33 - Midwives' perceptions of communication using a Swedish-Arabic dialogue support at antenatal care. - Dima Bitar (Sweden)
DH.34 - Walking challenge "Walk to the moon" ~ novel health promotion using personal health record in Japan. - Tomonari Shimamoto (Japan)
DH.35 - Feasibility, acceptability & preliminary efficacy of a digital preconception intervention: OptimalMe. - Bonnie Brammall (Australia)
DH.36 - Evaluating preconception health and behaviour change following a digital intervention: OptimalMe. - Bonnie Brammall (Australia)
DH.37 - Social Medi(a)cine: Use of a social media group for medical advice and education post covid-19. - Maya Peled-Raz (Israel)
DH.39 - Dissemination of health-related technologies in Germany between 2020 and 2022. - Birgit Babitsch (Germany)
DH.41 - Vaccination, health information seeking, and ICT use among Estonians aged 50+ during COVID-19. - Marianne Paimre (Estonia)
DH.42 - Automated surveillance system for surgical site infections from hospital discharge letters. - Luigi De Angelis (Italy)
DH.43 - Innovative online portal to support persons with obesity: STOP Project RCT. - Anne Moorhead (UK)
DH.44 - E-health to improve integrated care for older people: communication insights from ValueCare. - Hein Raat (Netherlands)
DH.45 - Investigating the gendered nature of new parents' digital technology use for health information. - Jodi Hall (Canada)

POSTER DISPLAYS ARE SHOWN ON TV SCREENS WITHOUT PRESENTATION AND MODERATION
ALL POSTERS ARE DISPLAYED AT ALL TIMES DURING THE CONFERENCE

DH.46 – The association between self-perceived stuttering and social participation among older adults. – Emma Lindström (Finland)
DH.47 – Can we make better use of our operating theatres? – Valerio Peruzzi (Italy)
DH.48 – Designing Dynamic Informed Consent For Public Health Research. – Pedro Miranda (Canada)
DH.49 – ChatGPT for Systematic and Scoping Reviews in Public Health Research: An Applicable Approach. – Pedro Miranda (Canada)
DH.50 – Digital capture of the patient reported experience. – Caroline Walsh (Ireland)

DJ – Epidemiology

DJ.1 – Association between sleep duration and high blood pressure in Lithuanian adolescents. – Ieva Stankute (Lithuania)
DJ.2 – The impact of socioeconomic vulnerability on the incidence of COVID-19 in school students. – Gabriela Barbaglia (Spain)
DJ.4 – Leisure-time physical activity and gastric cancer risk: a pooled study within the StoP project. – Stefania Boccia (EUPHA-EPI)
DJ.5 – The obesogenic environment and incident cardiovascular disease in The Maastricht Study. – Jeffrey Chan (Netherlands)
DJ.6 – Aging well? Exploring self-reported quality of life in the older Austrian population. – Richard Felsinger (Austria)
DJ.7 – Life's Simple 7 for cardiovascular health is associated with cancer risk in the Moli-sani Study. – Marialaura Bonaccio (Italy)
DJ.8 – An increased risk for ischemic stroke in the short-term period following COVID-19 infection. – Lital Keinan Boker (Israel)
DJ.9 – Relation between mortality and physical activity levels or sedentary behavior: Proof cohort. – Caroline Dupré (France)
DJ.12 – Care trajectory differences in women and men with end-stage renal disease after dialysis initiation. – Juliette Piveteau (France)
DJ.13 – Nutrition and food supply after the Covid-19 pandemic: results from the Specchio cohort study. – Helene Baysson (Switzerland)
DJ.14 – Food emulsifiers and risk of type 2 diabetes: results from the prospective NutriNet-Santé cohort. – Clara Salame (France)
DJ.15 – Risk exposures in early life and incidence of early-onset colorectal cancer across countries. – Ziyang Wang (China)
DJ.16 – Age-period-cohort analysis of mortality and its association with deprivation in Hungary, 2007–2021. – Attila Juhász (Hungary)
DJ.17 – Changing inequalities in life-expectancy by income in Finland 1997–2020. – Lasse Tarkiainen (Finland)
DJ.18 – Lung cancer mortality and soil content of arsenic and cadmium: an ecological study in 26 EU countries. – Joanna Julia Bartnicka (Italy)
DJ.19 – Putting blood donors at the heart infectious disease surveillance. – Allison Waters (Ireland)
DJ.20 – A conceptual framework for early life determinants of future multimorbidity. – Sebastian Stannard (UK)
DJ.21 – Social inequality in mortality associated with neurodegeneration: a population-based study in Belgium. – Janna Dinneweth (Belgium)
DJ.22 – Prevalence of overweight among Tunisian adolescents: Trend analysis 1996–2016. – Mariem Zribi (Tunisia)
DJ.23 – Patterns in tobacco attributed mortality in Belgium for 2019. – Leonor Guariguata (Belgium)
DJ.24 – Social and environmental stressors and cardiometabolic risk. – Anna Bartoskova Polcova (Czechia)
DJ.25 – Diet quality and risk of SARS-CoV-2 infection or COVID-19 disease: a systematic review. – Marialaura Bonaccio (Italy)
DJ.27 – Psychoactive substances use among Tunisian adolescents: Trend analysis 2013–2021. – Mariem Zribi (Tunisia)
DJ.28 – Mortality around the anniversary of a sibling's death. Findings from Swedish register-data. – Mikael Rostila (Sweden)
DJ.29 – Covid-19 pandemic and mental health in Italy: a multicenter, longitudinal national project. – Alessio Petrelli (Italy)
DJ.30 – Colonizations and infections due to 3GCR Enterobacteriaceae in a University hospital in Italy. – Gloria Stevanin (Italy)
DJ.31 – Socioeconomic inequalities in COVID-19 – An analysis of health insurance data. – Benjamin Wachtler (Germany)
DJ.32 – Recurrence of wheeze in preschool aged children: a retrospective cohort study in primary care. – Hanna Creese (UK)
DJ.33 – Impacts of the COVID-19 pandemic on the breast cancer control pathway in Ireland. – Paula Tierney (Ireland)
DJ.36 – Epidemiological and clinical characteristics of Mpox Cases in Serbia in 2022. – Verica Msclovanovic (Serbia)
DJ.37 – Cervical cancer epidemiology in elderly women in Germany. – Stefanie J Klug (Germany)
DJ.38 – Impact of PFAS exposure on immune-mediated diseases and immune transcriptome in Czech adults. – Barbora Rudzanová (Czechia)
DJ.39 – COVID-19-related changes at work and psychosocial work environment: a prospective cohort study. – Johanna Kausto (Finland)
DJ.40 – Link between COVID-19 Vaccination Attitudes and Support for Mandatory Childhood Vaccinations. – Rositsa Chamova (Bulgaria)
DJ.41 – Eating behaviour of the Croatian working population during the COVID-19 pandemic. – Maja Miskulin (Croatia)
DJ.43 – A&F effectiveness in reducing avoidable health differences: Equity issues & COVID 19. – Laura Deroma (Italy)
DJ.44 – Differences by immigration status on Covid-19 acute outcomes in the Emilia-Romagna ORCHESTRA cohort. – Alice Corsaro (Italy)
DJ.46 – Burden of heart failure in Kazakhstan: data from the unified national healthcare system 2014–2021. – Gulnur Zhakhina (Kazakhstan)
DJ.47 – Influenza's burden: an umbrella review about complications, hospitalizations and mortality. – Sara Properzi (Italy)
DJ.48 – Sentinel Surveillance of Severe Acute Respiratory Infections in Serbia in 2022–2023 Season. – Dragana Dimitrijevic (Serbia)

POSTER DISPLAYS ARE SHOWN ON TV SCREENS WITHOUT PRESENTATION AND MODERATION
ALL POSTERS ARE DISPLAYED AT ALL TIMES DURING THE CONFERENCE

DJ.51 – The indirect effects of socioeconomic position on lung function: a mediation analysis. - Consuelo Quispe-Haro (*Czechia*)
DJ.53 – Prevalence of fatigue in the general population during the pandemic: cross-sectional study in Geneva. - Clément Graindorge (*Switzerland*)
DJ.55 – Age trajectories of disability in middle and older age: a machine learning approach. - Yu-Hung Chang (*Taiwan*)
DJ.57 – Trends in smoking and alcohol drinking according to socioeconomic status in Mongolia. - Erdenezorig Tserengombo (*South Korea*)
DJ.58 – Associations between exposure to organochlorine pesticides and diabetes risk: a systematic review. - Uyen Vu (*France*)
DJ.59 – Operationalization, characterization and validation of a healthy lifestyle index in 35 LMICs. - Rebecca Schindlmayr (*Germany*)
DJ.60 – Trends in premature mortality due to malignant neoplasms of female genital organs, Poland (2000–2021). - Monika Burzyńska (*Poland*)
DJ.61 – The impact of the COVID-19 pandemic on delayed care of CVD in Europe: a systematic review. - Yasmine Khan (*Belgium*)

DK – Ethics and Law

DK.1 – Bulgarian bioethicists on patients' responsibility as a basis for prioritisation in healthcare. - Silviya Yankulovska (*Bulgaria*)
DK.2 – Can ChatGPT follow an algorithm for ethical decision-making in public health? - Atanas Anov (*Bulgaria*)

DL – Health assessments: impact, technology

DL.4 – The quantitative effects of selected risk factors on Diabetes Mellitus type 2. - Elena von der Lippe (*Germany*)
DL.5 – Integration of Social Return on Investment with Health Impact Assessment and evaluation frameworks. - Liz Green (*UK*)
DL.6 – Machine learning algorithms for prediction of double burden of malnutrition among Tunisian adults. - Mariem Zribi (*Tunisia*)
DL.7 – A descriptive study assessing the infodemic medical students faced during COVID-19 pandemic. - Beyza Ataoğlu (*Turkey*)
DL.9 – Multimethod study on patient-reported measures for routine assessment of primary care. - Susanne Drexler (*Austria*)
DL.10 – Digitally supported health care; evaluation approaches to a complex intervention embedded in a tria. - Anthony Staines (*Ireland*)
DL.12 – Prehabilitation prior to elective surgery for frail elderly – protocol for a scale-up analysis. - Susanne Felgner (*Germany*)
DL.13 – Health technology assessment of genetic and genomic applications: is it possible to standardize? - Valentina Baccolini (*Italy*)
DL.14 – Application of personalized medicine implementation framework: a multi-country analysis. - Patricia Julia García Sanz (*Spain*)
DL.15 – The "Cristo Re" hospital experience on telerehabilitation for treatment post thyroidectomy neck pain. - Gabriella Nasi (*Italy*)
DL.16 – Predictive model for patient blood management in elective cardiac surgery: blood bag saving 2013–2020. - Alessandra Cartocci (*Italy*)
DL.17 – The impact of covid-19 pandemic on Albanian health emergency operation centre. - Martina Giusti (*Italy*)
DL.18 – HTA challenges for personalized medicine: the case of liquid biopsy for lung cancer. - Lorena Aguilera-Cobos (*Spain*)
DL.19 – A theoretical framework for developing a health impact assessment implementation model in Ireland. - Monica O'Mullane (*Ireland*)
DL.20 – Mathematical model for the prediction of high blood pressure through digital dermatoglyphics. - Román Leonardo Rodríguez Florián (*Colombia*)
DL.21 – Long-term study using of short stems with ceramic-on-metal bearing in hip replacement. - Gabriella Nasi (*Italy*)
DL.22 – HIA as a standard tool for effective decision-making on NCD policies. - Jarmila Pekarcikova (*Slovakia*)
DL.23 – Cost-effectiveness analysis of child eye health interventions in India. - Sunny Mannava (*India*)

DM – Work and health, Social security and social welfare

DM.3 – Lung cancer screening by low-dose CT among asbestos-exposed workers in Germany. - Jan Heidrich (*Germany*)
DM.4 – Is workplace mental health stigma associated with managers' prevention of employee's sick-leave? - Sofie Schuller (*Netherlands*)
DM.5 – Prior morbidity and sickness absence with Covid-19 among wholesale and retail blue-collar workers. - Kristin Farrants (*Sweden*)
DM.6 – Sleep quality, sleep quantity, and sleep disturbances among hospital night workers - Fleur van Elk (*Netherlands*)
DM.7 – The employment consequences of hearing loss among teachers: a 7-year follow-up study. - Cornelis Roelen (*Netherlands*)
DM.8 – Work-related stress, reason for consultation and sick leave diagnosis in primary health care patients. - Kristina Holmgren (*Sweden*)
DM.9 – Effect of job guarantees on youth unemployment: its impact on socioeconomic and health inequalities. - Merel Schuring (*Netherlands*)
DM.10 – Time from sickness absence due to cancer until return to work by locations and sex, Catalonia, Spain. - Amaya Ayala (*Spain*)
DM.11 – Working life sequences among 9269 women and men in Sweden; a prospective cohort study. - Katalin Gemes (*Sweden*)
DM.12 – Sickness absence after work injuries and post-traumatic stress among white-collar workers. - Kristin Farrants (*Sweden*)
DM.13 – What hinders me returning to work? Sick listed employees own stories. - Linn Vathne Lervik (*Norway*)
DM.15 – Organisational aspects and determinants on intention to seek psychotherapeutic consultation at work. - Fiona Kohl (*Germany*)

POSTER DISPLAYS ARE SHOWN ON TV SCREENS WITHOUT PRESENTATION AND MODERATION

DY.19 – Risk factors associated with falls among older adults with diabetes. – Diana Alsayed Hassan (*Qatar*)

SOCIAL PROGRAMME

WELCOME RECEPTION

Thursday 9 November, 19:00 – 20:30 (Dublin time)

The Welcome Reception is held at the conference venue The CCD. Attendance is free of charge but registration through your EPH Conference account is required as there is a maximum number of places available.

SOCIAL EVENING

Friday 10 November 2023

Croke Park, Jones Road, Dublin 3. Doors open at 19:30 (Dublin time)

This year we have a dinner buffet that we alternate with Irish folklore dancing. There is ample opportunity to enjoy your food while meeting colleagues and friends.

For well over a century, the Croke Park has been headquarters of the Irish Gaelic Athletic Association (GAA). Every September, the Association's two annual marquee events - the All-Ireland Football and Hurling Championship Finals – attract a capacity over 80,000 fans, to witness the pinnacle of Gaelic games action - in this world-renowned stadium.

The dinner will be held in the Hogan Suite overlooking the inspiring manicured turf of Croke Park - a thrilling and dramatic setting for our social evening.

REGISTRATION

Social evening requires a registration.

HOW TO GET TO CROKE PARK

Croke Park is just a 15 minute walk from the CCD and the city centre. The entrance for the Social Evening is located at Jones Road.

GREENING THE CONFERENCE

EPH Conference is committed to reducing the environmental impact of the conference and finding ways to be more environmentally responsible. These are our initiatives we have taken together with The CCD, venue of the EPH Conference 2023, to minimize the impact of the conference on the environment.

FOOD AND DRINKS

We have chosen a variety of healthy options provided throughout the event:

- Fresh vegetables and fruit are the basis of all our meals. The CCD takes care to ensure that all their products are eco-friendly. The vast majority of our food produce is locally sourced. This ensures our meals are fresh and in season whilst also supporting local farmers. In addition, all chocolate, tea and coffee supplies are fair trade.
- We encourage the choice for vegetarian lunch and dinner options.
- We have chosen leaner meats and sea food, rather than beef meat.
- We do not offer alcohol at the conference. Water from water dispensers is available throughout The CCD.

In particular, The CCD follows the following ecological principles:

- We use 100% recycled napkins and wooden stir sticks, and all our disposable coffee cups are broken down to SRF waste.

- Care is taken to ensure that all new kitchen equipment is designed to conserve water and energy.
- Pre-packed individual portions are restricted as far as possible in order to reduce waste.

REDUCED MATERIAL USE

We have adopted eco-friendly practices in communicating with delegates:

- Abstract submission, registration and invoicing are fully web-based. The full programme is available in the EPH Conference App.
- Printouts of conference materials are avoided. By switching to ePosters printing of poster materials by delegates is avoided.
- The printed Programme Book is only available on request and against payment of a fee. It's printed on FSC Mix paper. FSC Mix means at least 70% of the wood in the product is from FSC-certified material or recycled material; and 30% is controlled wood from responsible sources.

SUSTAINABLE TRAVEL

We encourage our delegates to reduce the climate impact of their flight by flying CO2 neutral with the CO2 Impact Programme of their airline.

THE CCD

In 2021, The CCD secured ISO 20121 accreditation to become one of the few Irish venues to hold this standard. ISO 20121 is a recognised international accreditation that demonstrates our commitment to running sustainable events. Everyone at The CCD is committed to achieving its sustainability vision. Read more about sustainability at The CCD.

EUPHA'S GREEN CLUB

EPH Conference Foundation is advised by EUPHA's Green Club in its efforts to reduce the environmental impact of the conference. The Green Club is a EUPHA working group of environmental experts and environment-conscious colleagues. The Green Club meets annually at the EPH Conference.

GENERAL INFORMATION

Abstract Supplement

Abstracts of all presentations in the parallel programme are published in the *Supplement to the European Journal of Public Health* which can be accessed through your personal login at www.ephconference.eu.

Accreditation

Accreditation of the 16th EPH Conference has been applied for with the European Accreditation Council for Continuing Medical Education (EACCME). Check the Conference website or App for the number of CME credits.

Catering

Lunch is served at the exhibition area in The Forum on the ground floor. It is not allowed to take your lunch with you into the conference rooms, except for the attendees of the Lunch Symposiums

Conference badge

Please wear your badge at all times during the conference, welcome reception and dinner. It gives you access to all activities for which you have registered. For replacement of lost badges or other badge-related matters, visit the EPH Conference Registration Desk in the main entrance.

On the front of your badge you will see coloured boxes which correspond to access on different conference days. When a box is not coloured, no access is allowed that day.

Front side of the badge

Yellow + W = Wednesday, pre conferences
Blue + T = Thursday, main conference
Green + F = Friday, main conference
Orange + S = Saturday, main conference

'book' for hard copy of Programme Book
'drink' for Welcome reception
'cutlery' for Dinner and Dance

Is the block not coloured, it means not booked

Conference hosts

You will recognise our hosts in black suits and black polo shirts with the EPH Logo. They are happy to help you with your questions.

Cloakroom

You will find the cloakroom in the entrance area. Use of the cloakroom is at your own risk and responsibility and free of charges.

Downloads

Presentations and photographs will be available at the conference website www.ephconference.eu shortly after the conference.

Emergency and First Aid

If you notice an emergency alert staff of the CCD or proceed to the EPH Conference Registration Desk who will initiate further procedures.

If the conference building has to be vacated for some reason, follow the orders of the Security staff immediately and move to the gathering points outside the Main Entrance.

E-Poster walks and E-Poster displays.

Posters are displayed electronically on TV screens and mini screens in the Forum. There are 3 stations showing all accepted posters. Poster display stations are in The Forum (ground floor).

Moderated E-Poster walks are part of the parallel programme and held in the foyer of the third floor. They are divided over the two stations indicated as 'Poster walk R' and 'Poster walk S'.

E-poster displays are shown on all stations without presentation and moderation. E-posters can be viewed at all times during the conference.

Evaluation

After the conference you will receive an email with a link to the web-based Conference Evaluation Form. Your responses will be used to organise even better meetings in the years to come.

Exhibition

Do not miss the exhibition stands in the Forum. EPH Conference and EUPHA have a stand at the exhibition. Come and visit us!

Food allergy

Delegates that have sent their specific dietary wishes, can ask for their menu at the catering buffets in the Forum.

Insurance

The Foundation EPH Conference / EUPHA cannot accept liability for personal accidents or loss of or damage to the private property of participants and accompanying persons, either during or indirectly arising from attendance of the 16th EPH Conference. Participants should make their own arrangements with respect to health and travel insurance.

Language

The official language of the conference is English.

Lost and found

Please contact the EPH Conference Registration Desk.

Mobile phones

Please turn off your mobile phones during the sessions.

Mobility constraints

We are committed to making the 16th EPH Conference accessible to the widest range

of people possible. If you are a regular wheelchair user you should bring your chair with you.

The conference venue is equipped with elevators. Wheelchair users and disabled participants may need assistance in using the elevators. Please do not hesitate to ask the staff.

Publicity

Delegates are not permitted to place or hand out publicity materials, flyers, samples etc. Placing or handing out publicity materials, flyers, samples etc. is only allowed by exhibitors at the exhibition stand and by preconference organisers in the allocated meeting rooms. Live streaming or webcasting of the conference sessions is not allowed without prior written permission from EPH Conference Office and presenters.

Smoke-free

We are happy to offer an entirely smoke-free conference.
