

Clanwilliam Health holds over 30 years of experience developing and designing healthcare software. Our extensive range of innovative technology now empowers more than 20,000 clinical users across Ireland and the UK to deliver safer, more efficient, and cost-effective patient services. Simply put we create products that are the strongest digital foundation for healthcare professionals.

Our software systems are used by GPs, Consultants, Pharmacies, care homes and hospitals to improve healthcare for both providers and patients. From referrals to eprescriptions, our vision is to enable the seamless flow of patient data by connecting primary and secondary healthcare software systems to enhance patient experiences. We work hard every day to achieve this by putting our customers at the centre of everything we do and partnering with key industry stakeholders to ensure our systems consistently exceed expectations.

Our mission is simple, we want to create software that provides healthcare professionals with the strongest possible digital foundation from which to deliver enhanced patient outcomes. Visit our website, www.clanwilliamhealth.com to find out more about us and how our solutions could help you today.
