

## A guideline to the European Health Data Space language based on health literacy principles Preconference Programme

Time	Programme	Moderator/ Speaker
09:00h	<i>Opening and welcome</i>	Orkan Okan and Nienke Schutte
09:15h	Introduction to European Health Data Space (EHDS) and Health Literacy. Keynotes:  1. Framework to health literacy  2. Introduction to the European Health Data Space	1. Kristine Sørensen, Global Health Literacy Academy, Denmark 2. Nienke Schutte, European Health Information System unit, Sciensano, Belgium
10:00-11:30h	Working groups	Led by international key experts from the field of health data and health literacy  Working in groups, we will focus on specific terms used in EHDS. The objective is to find solutions to make them more comprehensible for citizens and professionals, using health literacy principles. The starting point will be an official definition for each term. The participants will then formulate in the group a working description, which would allow them to understand it from their own working field.  Working group leaders and facilitators: Hanna Tolonen, Heidi Lysol, Nienke Schutte, Miriam Saso, Irene Kesisoglou, Shona Cosgrove and Pascal De Rycke, Marlene Meyer, Cara Krudewig, Lisa Stauch, Pia Rangnow, Samantha Belfrage and Sophie Rauschmayr
10:30-11:00h	<i>Coffee and tea break</i>	
11:30-12:00h	Presentations	The working groups will present their key findings and suggest ways on how to translate the complex terms into simple and easy-to-understand terms, and how this could help to support their health literacy and those of citizens.  Facilitator: Kristine Sørensen
12:00-12:20h	Presentation by the WHO Infodemic Unit	The last presentation will bridge the professional and citizen perspectives from the perspective of infodemic management  Speaker: Tina Purnat
12:20-12:30h	Closing	Orkan Okan and Nienke Schutte
