SAILING THE WAVES OF EUROPEAN PUBLIC HEALTH: EXPLORING A SEA OF INNOVATION

ABSTRACT SUBMISSION RESULTS

Thank you for submitting your abstract for the EPH Conference 2024. We received a record number of 3,055 single abstracts and 312 workshop proposals which are now being reviewed by our experts in the International Scientific Committee. Results of the abstract submission will be communicated to you by mid-June. Keep an eye on your inbox and spam folder! Accepted abstracts are published in the Abstract Supplement of the *European Journal of Public Health* but only if you have registered for and presented at the conference.

THEME AND PROGRAMME

The theme of this year's EPH Conference '**Sailing the waves of European public health: exploring a sea of innovation**', reflects our collective journey. Just as explorers once set out from Lisbon to discover new worlds, we public health professionals are embarking on a journey of innovation and discovery in our own field. We aim to push the boundaries, discover new approaches and chart the course for the future of public health in Europe. The focus of our journey will be on:

- Artificial Intelligence in Public Health: exploring how AI is transforming disease surveillance, healthcare delivery, and decision-making;
- One Health: while recognizing the interconnectedness of human, animal, and environmental health, we will discuss how an animal-centric approach can strengthen public health strategies and mitigate emerging threats;
- Social Marketing in Public Health: discussing innovative campaigns, digital strategies, and community engagement techniques to promote healthier behaviours;
- Health Inequalities: looking at innovative strategies that can be employed to reduce disparities and ensure equitable access to health care;
- Global Health: discussing the interconnectedness of our increasingly globalized world and how European public health efforts can contribute to global health solutions.

The themes will be dealt with in our plenary sessions, organised by EUPHA, EuroHealthNet, European Health Management Association (EHMA), ASPHER, European Observatory on Health Systems and Policies, European Centre for Disease Prevention and Control (ECDC), European Commission and WHO Regional Office for Europe.
