

European Public Health Association

The network for public health professionals in Europe

The European Public Health Association, or EUPHA in short, is the umbrella organisation for public health associations and institutes in Europe. EUPHA is a not-for-profit, international, multidisciplinary, scientific organisation. We have over 80 members from most of the 53 countries in the WHO European Region. Our network brings together over 39,000 public health professionals.

Our mission is to facilitate and activate a strong voice of the public health network by enhancing visibility of the evidence and by strengthening the capacity of public health professionals.

OUR TOOLS

European Journal of Public Health

Our scientific open access journal with an impact factor of >4.0

European Public Health conferences

We initiate and co-organise the annual scientific European Public Health conference, where the latest public health research is presented. The conference is an excellent networking event for public health researchers, practitioners and policy makers from Europe and beyond.

EUPHA sections

These thematic networks are open to all public health experts and bring together researchers, policymakers and practitioners working in the same field for knowledge sharing and capacity building. EUPHA sections cover a broad range of public health topics and organise various activities, including webinars, pre-conferences, summer schools and more.

EUPHAnxt

EUPHAnxt is a unique network within EUPHA for students and young professionals, including early career researchers and policymakers, in the field of public health. Activities organised by EUPHAnxt for the next generation of public health professionals include internships, fellowships at the European Public Health conference, and mentoring.

European Public Health Week

The European Public Health Week (EUPHW) aims to raise awareness about public health and promote collaboration among the public health community in Europe. It is an initiative that began in 2019 and continues to be organised annually mid-May.
