

Digital Health and GDPR

Perspective of the private sector

Helping or blocking ?

Digital Health and GDPR

Perspective of the private sector

Positive: Clear framework for routine data collection

Digital Health and GDPR

Perspective of the private sector

Question: Positioning of private digital health provider ?

Healthcare service provider ?
Public health service provider ?
Software provider ?

Digital Health and GDPR

Perspective of the private sector

Research: Digital collection is routine care with different data collection process or it is a new medical/healthcare practice which needs research protocol / legal autorisation ?

Digital Health and GDPR

Perspective of the private sector

A work in progress
Adaptation to national research regulations
Public health impact ?
