How to reach all the members of CAPH?

Ideas

- Via mail man.
 - Is mail man open for everything?
 - Kind of. You can send your mail to mail man and it will be send to everyone.

- Possible to organize a kind of consortium for H2020.
 - Ask members to join Riche, so they can place their research products there. In that case, if someone wants to make a H2020 request, they can look in that database for comparable research.

- Make comparative (inter)national research possible research.
 - Use the same indicators/determinants in research.

- Formation of international/global alliances.

- Agree upon indicators to be used in the research.

- Cross-country/cross-global research. An essential prerequisite here is that research partners agree upon indicators.

The voice of the child: has it been heard in CAPH activities?

1. Workshop about the voice of the child in research.
 - What are the outcomes that children find important?

2. Collaborate on key messages so we have agreement.
 - Not by using a workshop, but to send out key messages by mail, blog or LinkedIn.
 - Let someone formulate a key message/statement.
 - Let it circulate within the CAPH group so all members can give their opinion.
 - The result will be a widely (CAPH) supported key message.

3. Health observatory.
 - Impact of austerity measures on health of children.
 - Agreement on indicators.Upload data in special maps so one can easily see what the local situation is and what trends can be identified

4. Cooperation with education and training.
 - How to attract the different researchers in this field?
