---	---

1 Welcome

Names, email address and organisation are on the separate list  
Brief introduction of attendees was presented

2 Activities of this section

We discuss about cooperation with other sections within EUPHA:  
Public Mental Health Section, Urban Public Health Section, Infectious disease Control Section

Who wants to become more active for the section?  
Names are on the list attached.

What topics would we like to highlight in the year 2017?

Possible topics for the year 2017:

- SDG and environmental diseases
- Chemicals, consumers and environment
- Circular economy and Healthy environment
- Climate, air pollution, energy and health
- Mental health and Environment
- Food and Environment (?)

All present colleagues are interested to be more active in ERD section

3 Workshop 2017 activities

How do we relate to the theme of 2017 conference?

What will be our approach?

Can we form a small task force? Which section do we have contacts to cooperate?

Sections interested in cooperation with ERD section.: Public Mental Health, Urban Public Health and Infectious Disease Control

We were discussed about possibility to organize common preconference with Public Mental Health section and Urban Public Health section.

Also, there was an idea and suggestion for discuss about changing name of the section in Environmental Health Section.
