Top 1 Information on EUPHA structure and section council

Christiane informed about the section council and the new section rules. See appendix.

Top 2 Section workshops at the present conference

The selection of sections workshops into the conference programme was discussed. The section was successful in getting two submitted workshops into the conference programme.

Top 3 Future topics for the section

Different topics have been proposed as relevant for future section workshops and section activities. For several of the topics a potential cooperation with other EUPHA sections have been discussed

- Theories for applications: The role of implicit cognitions for healthy choices
 - Social capital and urban health (offers cooperation with the section urban health)
 - Participation
 - Advocacy at all levels: policy, media etc. (offers cooperation with the section partner up with the section public health practice and policy)
 - Mindfulness (offers cooperation with the section mental health)
 - Mental health promotion (offers cooperation with the section mental health)
-

- The role of HP to make the business case (offers cooperation with the sections public health economics and public health practice and policy)
- Building a solid base of HP knowledge/models that work
