PRIORITIZATION IN PUBLIC HEALTH
NEW INSIGHTS IN THE FRAME OF HTA
Crisis Elements
(Ricciardi et al.: The Perfect Storm)
For the next decade, needs and demands will increase by at least 20%. What can we do?

- Prevent diseases, disabilities, dementia and frailty in order to reduce the demand
- Enhance outcome using cost-effective evidence-based actions
- Increase outcomes improving quality and safety in processes
- Increase productivity while reducing costs

(Sir Muir Gray)

297 RETWEET  348 MI PIACE
Health technology assessment is a multidisciplinary process that summarises information about the medical, social, economic and ethical issues related to the use of a health technology in a systematic, transparent, unbiased, robust manner. Its aim is to inform the formulation of safe, effective, health policies that are patient focused and seek to achieve best value.
HTA: 3 elements and 3 steps

3 elements
- Contents
- Process
- Administration

3 steps
- Priority setting
- Assessment
- Appraisal
