# What is eHealth?

“

eHealth involves a **broad group of activities** that use electronic means to deliver **health-related information, resources and services**: it is the use of **information and communication technologies (ICT)** for health.

”

World Health  
Organization

REGIONAL OFFICE FOR  
Europe

# FROM INNOVATION TO IMPLEMENTATION

eHealth in the WHO European Region

# eHealth within the European Region

- EU Commission
  - eHealth Action Plan 2012-2020
- WHO
  - 2016 to 2020
    - Innovation to Implementation Plan
- HIMSS Europe

A perspective view of a long wooden pier with railings extending into a calm blue ocean under a cloudy sky. The pier's wooden planks and railings create strong lines that converge towards the horizon.
