

EUPHA section "Injury Prevention and Safety Promotion"

Minutes of the annual meeting November 2016

Present

Anne Lounamaa, Johan Lund from the INJU section

Agenda

This year the annual meeting was scheduled to be 30 min. The agenda was to review the activities of the ongoing conference in Vienna, as far as they already took place, and to collect ideas for Stockholm 2017. The agenda was accepted.

Activities at the Vienna Conference

The Patient safety workshop was just before the annual meeting and the general impression was that the workshop was well received. The number of attendants was perhaps more than expected. Also the preconference organized this year, as in so many previous years, with EuroSafe Association gathered a good number of participants and the discussion was lively.

Ideas for Stockholm Conference

- A proposal was made to continue with the same theme "Patient Safety". A core group to prepare was formed: Persephone Doupi, Johan Lund, Silvio Brusafarro, Kerstin Horch and Paulo Sousa.
- An idea that a methodological workshop could be organized with the theme: sever injuries; How to define and measure
- To continue with EuroSafe with preconferences

Other

A plan to organize a summer meeting in Romania in 2017 for Injury Prevention Experts in Europe with a strong emphasize on young professionals was presented. This could be organized together with EuroSafe Association and WHO Europe. Anne Lounamaa will take next steps with this initiative.
