

Minutes Join the Network meeting SSWH 14 October 2020

1. Introducing oneself:

Gunnel Hensing (chair)

Ute Bültmann (vice-chair)

Kristina Alexanderson (senior advisors group)

Emilie Friberg (steering group member; future collaborative group)

Kristin Farrants

Emmelie Hazelzet

Kai Michelsen

Kristina Holmgren

Jenny Gustafson

Paula Nordling

Sophia Thomas

Angelique de Rijk (steering group member, minutes)

2. Minutes last year

Additional regulations discussed last year and prepared by Gunnel and Kristina will move to the Join the Network meeting next year since it involves discussions and considerations more suitable for IRL meetings.

3. Evaluation pre-conference

- In person is better but: Pleasantly surprised by richness of discussion; Excellent speakers, good content; Everybody stayed all the time; Very good presenters from 3 different continents
- Technical problems handled well
- Would be good to have 1 extra session during Spring with new presentations to allow young researchers to present and meet (organized by Future group)

4. Pre-conference Dublin 2021 10-13 Nov

- General theme of 2021 conference: Sustainable future
- Reach out to have Irish persons to organize (Birgit Greiner (via Ute))
- Also digital or hybrid
- Berlin 2022
- Rome 2023
- 2020: 3500 participants, 5000 expected when live, in Marseille 2000
- Share experiences from this digital conference to improve the next ones; we agree that earlier start of preparations would have been better
- Possible topics pre-conference 2021:
 - o New jobs, how do we deal with these?
 - o Include persons with health problems
 - o Sustainable work, sustainable labour markets
 - o Big data/ register data / Qualitative research → methodological topic
 - o Sustainable work & methods
 - o Routine and non-routine jobs
 - o Work-Life Balance and blurring borders
 - o Sustainable social security in relation to pandemic

5. Future group

Explicit goal is networking. They will organize a meeting in Spring for PhD-students, Ma and Ba students are invited as well
